FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions：(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

RAEE

Questo simbolo sui prodotti e/o sui documenti di accompagnamento indica che, ai sensi della nuova Direttiva 2012/19/UE sui Rifiuti da Apparecchiature Elettriche ed Elettroniche (RAEE), le apparecchiature elettriche ed elettroniche usate non devono essere smaltite assieme ai rifiuti domestici generici. Per un corretto trattamento, recupero e riciclaggio, si prega di consegnare il prodotto presso i punti di raccolta designati, dove sarà ritirato gratuitamente.
Smaltire correttamente il prodotto aiuterà a risparmiare risorse preziose e a prevenire potenziali effetti negativi sulla salute umana e sull'ambiente, che potrebbero altrimenti derivare da una gestione inappropriata dei rifiuti.
Per ulteriori informazioni sul punto di raccolta più vicino, contattare le autorità locali.
In caso di smaltimento non corretto di questi rifiuti, possono essere applicate sanzioni in conformità con la legislazione nazionale.
Per gli utenti professionali dell'Unione Europea
Se si desidera smaltire un'apparecchiatura elettrica ed elettronica (AEE), contattare il rivenditore o il fornitore per ottenere ulteriori informazioni.
Per lo smaltimento nei Paesi al di fuori dell'Unione Europea questo simbolo è valido solo nell'Unione Europea (UE). Se si desidera smaltire questo prodotto, contattare le autorità locali o il rivenditore e richiedere il metodo di smaltimento corretto.
