

150Mbps Nano Wireless USB Adapter

IROAD-W7 Manual

REV : 1.0
Data : Feb. 6, 2018

► General Usage

Insert the IROAD-W7 into the Dash cam USB jack

► Features

- 150Mbps wireless transmission rate
 - Provides two methods of operation: Infrastructure and Ad-Hoc
 - Quick Secure Setup, complies with WPS for worry free wireless security
 - Supports 64/128-bit WEP, complies with 128 bit WPA standard(TKIP/AES), supports MIC, IV Expansion, Shared Key Authentication, IEEE 802.1X
 - Supports Windows XP/Vista /win7/win8.1 OS
 - Seamlessly compatible with 802.11b/g/n devices
 - Equipped with an elegant and stylish USB Cradle for flexible deployment
-

► Description

IROAD-W7 is designed to provide a high-speed and unrivaled wireless performance for your computer. With a faster wireless connection, you can get a better Internet experience, such as downloading, gaming, video streaming and so on.

The IROAD-W7 USB Adapter complies with IEEE 802.11g and IEEE 802.11b standards. It can perfectly interoperate with all the 802.11n/g/b devices. The IROAD-W7 auto-sensing capability allows high packet transfer rate of up to 150Mbps for maximum throughput.

Featuring high performance transmission rates, simple installation and adaptability, as well as strong security, the IROAD-W7 USB Adapter is a perfect solution for small office and home needs.

► FCC ID & IC information

FCC ID: 2AQJ3-IROAD-W7

IC: 23966-IROADW7

Federal Communication Commission Interference Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device should be installed and operated with minimum 5 mm between the radiator and your body.

Canadian Compliance

This device complies with Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions:

(1) this device may not cause interference,

and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

(1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
