INSERTING TRACKERS

WHAT YOU NEED

Corner Trackers

Wristbands

INSERTING TRACKERS

Step 1

Retrieve the two wristbands and two sensors from the box.

INSERTING TRACKERS

Step 2

Insert the tracker into the wristband with both arrows pointing forward.

Lift the lip of the wristband over the back of the tracker to fully insert it. Repeat this process for both wristbands.

ATTACH WRISTBANDS

WHAT YOU NEED

Corner Trackers

Wristbands

ATTACH WRISTBANDS

Step 1

Place the Corner wristband onto your wrist ensuring the white line on the wristband is facing you.

ATTACH WRISTBANDS

Step 2

Wrap the wristband around your wrist ensuring it is not loose.

ATTACH WRISTBANDS

Step 3

Fasten the wristband at the back using the velcro strap. Repeat this process for both wristbands.

ATTACH WRAPS

WHAT YOU NEED

Corner Trackers

Wraps

ATTACH WRAPS

Step 1

Place the tracker onto your wraps leaving enough room to wrap around three more times. Ensure the arrow is pointing forward.

ATTACH WRAPS

Step 2

Wrap the hand wraps around the tracker three times. Make sure the LED's are facing you.

Step 3

Ensure the tracker is not showing and it is firmly in place. Repeat this process for both hand wraps.

APP

FCC Warning Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
