What's in the Box

The phone packaging box should contain the following items and accessories:
Phone, Battery, Charger, Headset, USB cable, Phone case and Quick Start Guide

Notices for the Use of Your Phone

Your phone should be treated with care. The following suggestions can help you extend the life of your mobile phone.

- 1) Place the mobile phone and its parts and components out of reach of young children.
- 2) Keep the phone dry. Rain, humidity and all types of liquids which contain minerals will corrode electronic circuits.
- 3) Don't touch the phone with wet hands when charging, it will cause an electric shock or damage the phone.
- 4) Avoid placing the device in high temperature environments. High temperatures can shorten the life of electronic devices, damage batteries, and warp or melt certain plastics.
- 5) Avoid placing the device in a low temperature environment. When the temperature rises, the phone will produce water vapor that may damage electronic circuits.
- 6) Avoid placing the phone in dusty, dirty places, otherwise parts may be damaged.
- 7) Avoid placing the phone near a lit cigarette, open flame or any heat source.
- 8) Do not drop, knock or shake the phone. Rough handling can damage internal circuit boards.
- 9) Do not paint the phone. The paint may block headphones, microphones or other removable parts, and cause them not to work.
- 10) Use a clean, soft, dry cloth to clean the camera, light sensor lenses. Prohibit the use of harmful chemicals and cleaning agents to clean the phone.
- 11) Pacemaker manufacturers recommend that a minimum separation of 5 mm be maintained between a mobile phone and a pacemaker to avoid potential interference with the pacemaker(when the device is used in the

2

- USA,the separation distance can be maintained at 10mm between the user's body and the handset.). To achieve this use the phone on the opposite ear to your pacemaker and do not carry it in a breast pocket.
- 12) Please consult your doctor and the device manufacturer to determine if operation of your phone may interfere with the operation of your medical device.
 - 13) Turn off your mobile phone or wireless device when in a blasting area or in areas posted turn off "two-way radios" or "electronic devices" to avoid interfering with blasting operations.
 - 14) There is a risk of explosion if the battery is replaced with an incorrect type. Dispose of used batteries according to the instructions.

Getting to Know Your Phone

3

Before Getting Started
Removing the Back Cover

Installing the SIM Card

Installing the Battery

5

Installing a microSD Card (Not Included)

NOTE: Some applications may require a microSD card to work normally or may store certain data on it. Therefore, it is recommended that you keep a microSD card installed and not remove or replace it randomly.

Closing the Back Cover

Basic Settings

Your service provider may default some device settings, so you may not be able to change these settings.

Network and Internet

● Wi-Fi

Swipe Wi-Fi to right to switch on WiFi. Once it's on, it will search for available WiFi networks automatically. Check whether the network has a password. Network without a password can be used directly, for others you will need to enter the password to use. Note: Wi-Fi will switch off automatically when the phone is changed to flight mode, even if WiFi is on. Switch on WiFi again when the device is in flight mode, then the WiFi will work normally.

Connected devices

● Bluetooth

Swipe to the right to switch on Bluetooth. The phone will search automatically for nearby bluetooth devices.

Display

● Brightness

Brightness level: Adjust the screen brightness.

● Lock display

Lock screen: Customize what to show on lock screen. Screen timeout: Adjust the time allowed before the screen goes to sleep after inactivity.

● Appearance

Dark theme: turn on/off the dark background. Font size: Set the font size of the system. Display size: Set the display size of the screen.

● Other display controls

Auto-rotate screen: Swipe to turn on or off. Screen saver: Choose the screen saver and when to start.

System

● Languages and input

1) You can set up all the languages supported by the phone.

2)Keyboards: You can set On-screen keyboard and Physical keyboard.

● Date and time

1. Set time automatically: Swipe right to use date and time provided by network.
2. Time Zone: You can choose to use time zone provided by network or use location to set time zone.
3. Time format: You can choose to use local default time format or to use 24-hour format.

About phone

Here you can check out basic information including: Device name, phone number, local software update, and device details including SIM status, Model, RAM, IMEI, Android version, IP address, Wi-Fi MAC address, Device Wi-Fi MAC address, Bluetooth address, Uptime, Build number, etc.

Technical Specifications

- Network: GSM:850/ 900/1800/1900
WCDMA: B2/B4/B5
FDD: B2/B4/B5/B7/B12/B17/B66/B71/B25/B26
TDD: B41
- Display: 5.5"
- Memory: 16GB ROM+2GB RAM
- Camera: 5MP+2MP
- FM/MP3/MP4/GPS/WiFi/Bluetooth/G-Sensor
- Battery Capacity: 2000mAh Li-ion

(*):The storage capacity actually available in the unit's internal memory may be less due to the preloaded operating system and / or other pre- installed or configured applications. Check the space actually available on your computer.

SAR Information Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: smart phone (FCC ID: 2AQRM-A56) has also been tested against this SAR limit. The highest SAR value for this mobile phone tested is 1.268W/kg against the head and 0.472W/kg at 10 mm from the body.

FCC Declaration of Conformity

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radi-ate radio frequency energy and, if not in-stalled and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/ TV technician for help.

Use the smartphone in the environment with the temperature between -10℃ and 45℃
Use the earphone carefully. Excessive sound pressure from earphones and headphones can cause hearing loss.

The product shall only be connected to a USB interface of version USB2.0
CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.
