

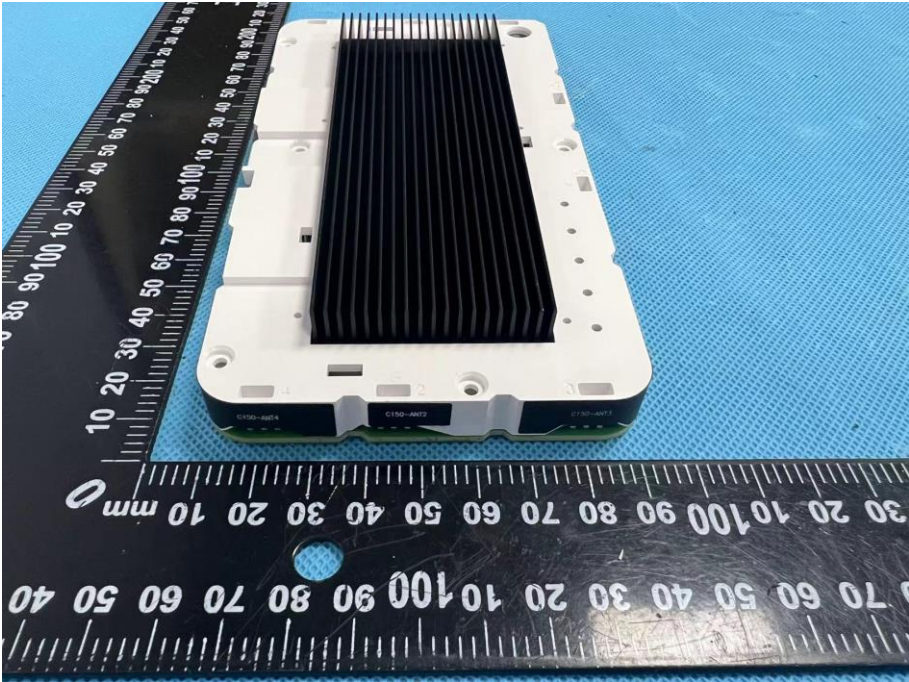

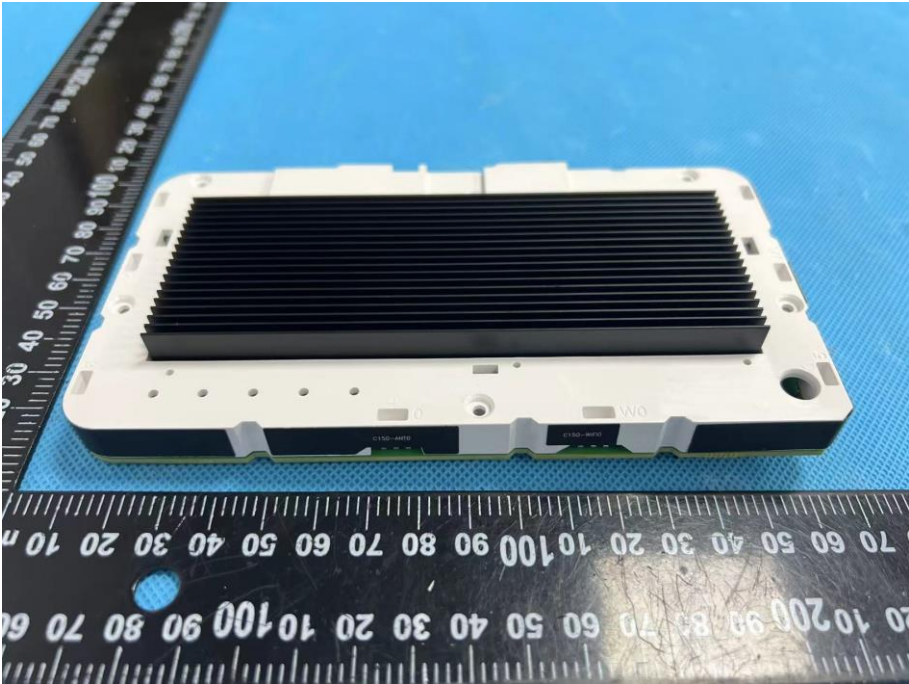

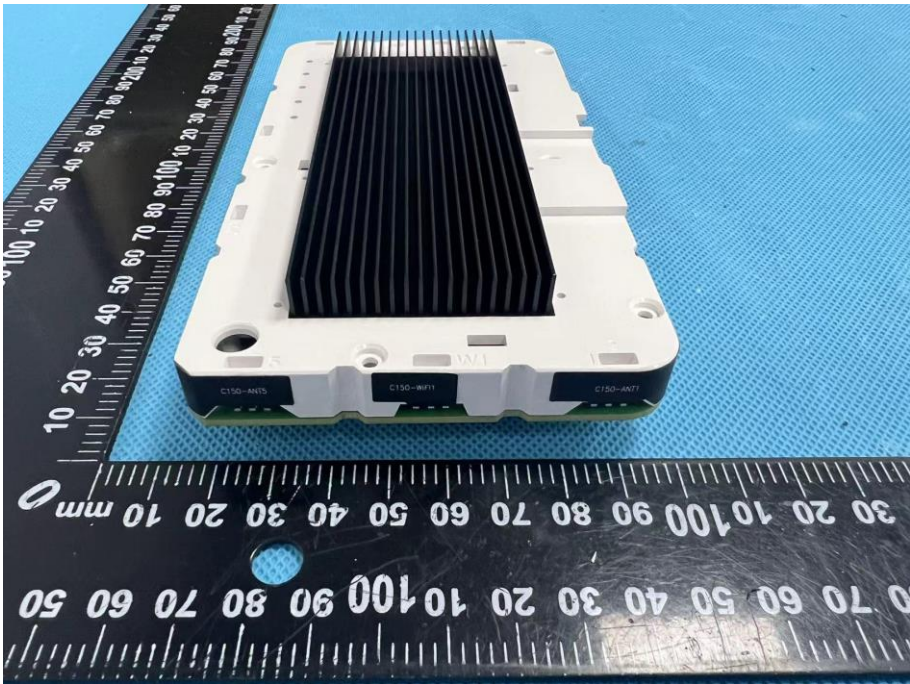

**EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**

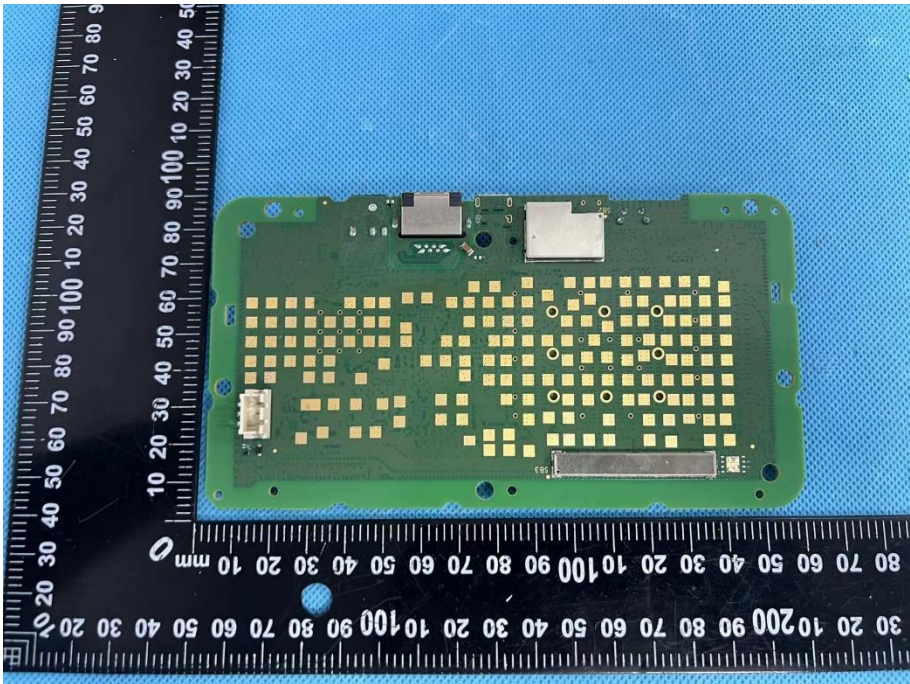

|                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>EUT Housing and<br/>Board View 1</b></p> |  A photograph showing the internal components of a device. On the left is a green printed circuit board (PCB) with various electronic components, including a large square chip and several smaller components. To the right of the PCB is a black plastic housing component. Both are placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters. |
| <p><b>EUT Housing and<br/>Board View 2</b></p> |  A photograph showing the internal components of a device from a different perspective. A blue battery is visible in the center, with a white label that includes a barcode and the text "FOXSY". To the right of the battery is a black plastic housing component. Both are placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.          |

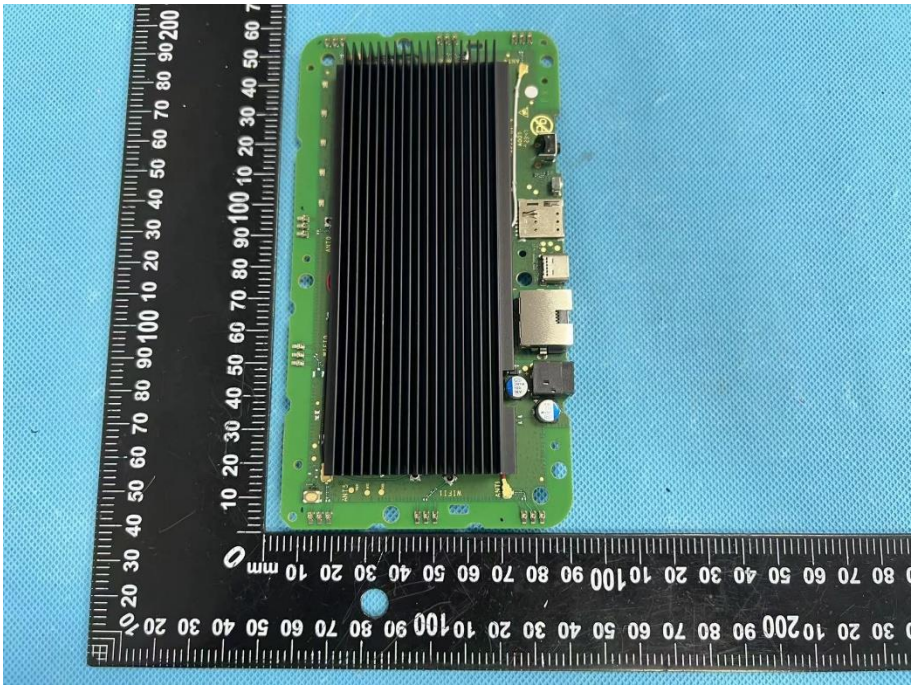

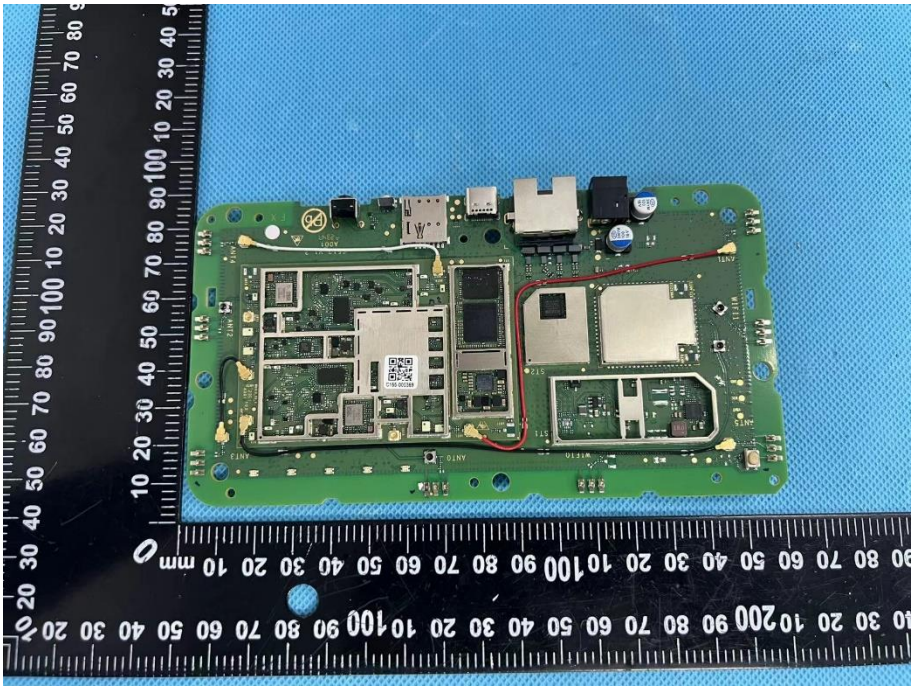

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component<br/>View 1</div> |  A photograph showing the top view of a white rectangular solder board component. The component features a central black rectangular area with numerous vertical black lines, likely representing a microchip or a specific solder pattern. The board has several small holes and mounting points. It is placed on a blue textured surface next to a black ruler with white markings, which shows measurements in millimeters. |
| <div>Solder<br/>Board-Component<br/>View 2</div> |  A photograph showing the bottom view of the same white rectangular solder board component. The component has a black rectangular area with vertical black lines, similar to the top view. The board has several small holes and mounting points. It is placed on a blue textured surface next to a black ruler with white markings, which shows measurements in millimeters.                                                 |

|                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Solder<br/>Board-Component<br/>View 5</p> |  A photograph of a green printed circuit board (PCB) component, likely a heat sink or thermal interface material, placed on a blue textured surface. The component is rectangular with a large, dark, rectangular area in the center. It is surrounded by various electronic components, including capacitors, resistors, and integrated circuits. A black ruler with white markings is positioned horizontally above the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). |
| <p>Solder<br/>Board-Component<br/>View 6</p> |  A photograph of the same green PCB component from a different angle, showing the underside. The component is rectangular with a large, dark, rectangular area in the center. It is surrounded by various electronic components, including capacitors, resistors, and integrated circuits. A black ruler with white markings is positioned horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).                                                        |

|                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Solder<br/>Board-Component<br/>View 7</p> |  A photograph of a green printed circuit board (PCB) with a grid of yellow solder pads. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The board has a small white connector on the right side and some electronic components at the bottom.                                |
| <p>Solder<br/>Board-Component<br/>View 8</p> |  A photograph of the same green PCB from a different angle, showing various electronic components including integrated circuits, capacitors, and connectors. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). A red wire is connected to one of the components on the board. |
