AIKA Smart Insoles (for Toddlers)

AIKA Smart Insoles

Description:

A silicone insert for toddler's shoes (1 size only, 2-5 y/o) which includes an internal BTLE module. The user will sync the BTLE module within the insole with a smart phone. When the toddler travels outside of the BTLE range, the smart phone will make an alert to notify the parent/guardian.

Use:

1. User syncs AIKA BTLE Smart Insole with AIKA App on smart phone.
2. User removes original insole in toddler's right shoe, and inserts AIKA Smart Insole into shoe.
3. When toddler escapes 30M perimeter, the smartphone app will be notified.
4. The parent/guardian receives an alert on the smartphone that the toddler has escaped the 30M perimeter.

MODULE COMPENTS

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement, the device can be used in portable exposure condition without restriction.
