The diagram illustrates the components of the Ultrasonic Humidifier, organized into two columns. The left column shows the main body and its internal parts, while the right column shows the top assembly and control accessories.

- Left Column Components:**
  - Mist Spout:** The top opening of the main body.
  - Top Cover:** The uppermost part of the main body.
  - Inner Lid:** The lid inside the main body.
  - Purple-clay Housing:** The main body of the humidifier.
  - Signal Receiver:** Located at the bottom of the main body.
  - Power On/Off Button:** A button on the front of the main body.
  - Power Inlet:** The power cord connection point at the bottom.
- Right Column Components:**
  - Air Outlet:** The top opening of the water reservoir.
  - Water Reservoir:** The container for water, placed on top of the main body.
  - Maximum Water Level Indicator:** A mark on the inner lid.
  - Mist Plate:** The plate inside the water reservoir.
  - Air Inlet Speaker:** The speaker located at the bottom of the water reservoir.
  - Power Adapter:** A power cord with a plug.
  - Remote Control:** A handheld device with buttons.

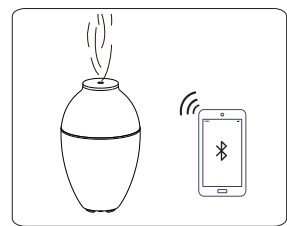

1. Remove the Top Cover.
2. Add water into the Water Reservoir until it reaches the red Maximum Water Level Indicator.
3. Add (8"10) drops of essential oil into the Water Reservoir.
4. Replace the Top Cover.
5. Plug in the Power Adapter.
6. Press the Power On/Off Button on the device to turn On the diffuser. Or Press the Power On/Off Button on the Remote Control to turn On the diffuser.
7. The functions (light, Melody and Time setting) can be set or/and controlled through the Remote Control. Refer to the Remote Control Section

The Ultrafuse Aroma Diffuser is equipped with a built-in speaker which can be connected to media player via bluetooth connection for music playing.

1. Once the diffuser is connected to power source, the diffuser light will flash once. The diffuser is now searchable for pairing with other media player (such as mobile phone or tablet).
2. In the bluetooth connection setting of the media player, search for "BT Diffuser" and pair with the Ultrafuse Aroma Diffuser. For bluetooth connection setting of the media player, please refer to the instruction manual of the media player.
3. When successfully paired, audio file(s) in the media player can be played through the built-in speaker of the Ultrafuse Aroma Diffuser.

◇ *If the connected media player is a mobile phone, in case of incoming call, all sound will play through the diffuser speaker unless bluetooth connection is disconnected.*

4. Press the Bluetooth On/Off Button on the remote control to turn Off the bluetooth connection of the diffuser. The diffuser will flashes twice. Press again to turn On bluetooth connection of the diffuser and the diffuser will flash once. For paired device, once bluetooth connection is enable on the diffuser and the Media Player, connection should be automatic and re-pairing is not necessary.

Power On/Off Button

Power On/Off Button on device is a multi-press button for variety settings as below

1. Press the On/Off Button once to turns on the device for continuous operation. Mist emits, Light illuminates and the light color will change sequentially (5 colors: blue, green, yellow/purple and white). The device is on standby mode for bluetooth connection for music playing.
2. Press the button the Second time, the light color changes to blue while mist emits.
3. Press the button the Third time, the light color changes to green while mist emits.
4. Press the button the Forth time, the light color changes to yellow while mist emits.
5. Press the button the Fifth time, the light color changes to purple while mist emits.
6. Press the button the Sixth time, the light color changes to white while mist emits.
7. Press the button the Seventh time, the device turns Off.
8. Press and hold the button anytime for 2 seconds to turn the diffuser off directly.

The Power On/Off Button cannot set time settings and will operate the diffuser until water is used up. Please use the Remote Control to select time setting if desired.

The diagram shows a remote control with the following button functions:

- Mist Button:** Turns the mist function on or off.
- Intermittent Mist Button:** Turns the intermittent mist function on or off.
- 1H Timer:** Sets the mist timer to 1 hour.
- 6H Timer:** Sets the mist timer to 6 hours.
- Bluetooth On/Off Button:** Turns the Bluetooth function on or off.
- Light:** Turns the light function on or off.
- Volume +:** Increases the volume.
- Volume -:** Decreases the volume.

The remote control also features a **Remote Control** button at the bottom.

```

Press the Bluetooth On/Off Button once to turn on the Bluetooth connectivity of the diffuser. Press again to turn Off the Bluetooth connectivity.

-  VOLUME +: Press the Volume + button to increase sound level.
-  VOLUME -: Press the Volume - button to decrease sound level.

1. Only use the product for the intended purpose.
2. Use only the adapter included in the package.
3. Do not drain the water through the Air Outlet.
4. When storing the device or relocating it, turn the power Off, unplug the device, empty the water reservoir and clean the product.
5. Turn Off the device immediately when there is any smoking or burning smell.
6. Do not fill the water to exceed the red Maximum Water Level Indicator.
7. Place the device on a flat and solid surface instead of uneven and/or unstable ones like carpets or rugs etc.
8. Refill tap water or mineral water . Do not use distilled water.
9. Do not move the product during its operation. Pull the Power Adapter instead of the wire to unplug.
10. Do not place the product in direct sunlight or close to a refrigerator, a fan or other hot environment.
11. This product should not be operated by children unless supervised by an adult.
12. This product is not for medical purpose. DO NOT inhale the vapor directly from the Mist Spout.
13. Please aware that the purple-clay housing is fragile can be broken easily.

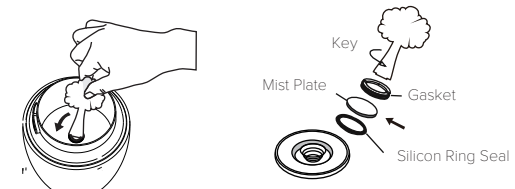

1. Working time: 1H, 6H
2. Maximum Working Time: 5+ hours Continuous, 1+ hours Intermittent.
3. It is normal for mist volume to vary with the type of water, number of drops of essential oil used, the humidity and / or air temperature.
3. The product is designed for using 100% pure, natural essential oil. Chemical fragrance, spice or impure essential oil used may cause product damage.
4. Use tap water or mineral water for washing and a soft cloth for wiping.
5. The device will turn off automatically when the water level is lower than the mist plate of the Water Reservoir.

-  **Warning:** Use of corrosive or harsh chemicals may cause damage.  
Drain the water as shown in the above diagram.

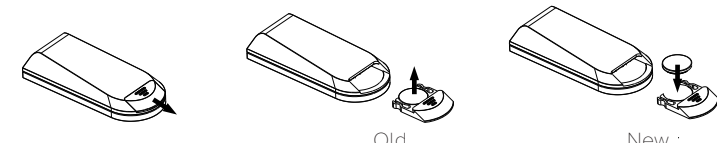

Turn the Lid counter-clockwise to to loosen the Top Cover assembly. Follow the diagram to disassemble all parts and wipe inside parts with soft cotton cloth.

Follow the diagram, remove the original Mist Plate by unscrewing the Gasket using the Key provided. Replace a new Mist Plate and press tightly onto the Silicon ring seal. Screw back the Gasket with the Key to secure.

The remote control includes a CR2032 Button Cell Battery. When Remote Control is low in Battery, replace with fresh CR2032 Button Cell Battery.

Follow the diagram to place the "+" upside into the Battery Compartment

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

**Caution:** The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Modification: Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) l'appareil ne doit pas produire de brouillage, et  
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
