

Size: (100 x 3) x 140 mm

BLUETOOTH SPEAKER WITH LAVA LAMP

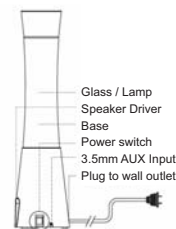

USER MANUAL

Function Instructions:

- Turn on the Power.
- This Lava Lamp is designed to operate in an average room temperature of 68°F~77°F. It takes 1~3 hours to warm up the Lava Lamp, make sure the Lava Lamp is at room temperature, before starting.
- The Lava Lamp operates at a very warm temperature. Place on a solid stationary, flat surface and keep out of reach of small children and pets. Avoid direct sunlight to prevent colors from fading and extreme overheating.
- The color hue of the wax will become mellow after working 2~3 hours. If the room temperature is high, the wax may become small and float to the top of the vase due to overheating. If the temperature is low, it will stay in the bottom of the vase without floating, until the room temperature is back to the designated range before restarting.
- Use only soft cloth to clean the surface, always unplug before cleaning.
- Do not move or shake the unit in order to avoid causing permanent damage when the Lava Lamp is working.
- Lava Lamp should never be heated up or cooled down artificially.
- Make sure the wax layer is completely flat and solidified before carry or moving the lamp.
- The space at the top of vase is provided for expansion of the liquid, do not break the seal of the cap to fill it with liquid.
- Use maximum 30 watt reflector bulb for bulb replacement, variance in bulb size or wattage may damage the lava lamp.
- The lamp and reflector may be off center during shipping, please re-center

before plugging in the lamp.

- When the lamp is turned on, it is not recommended to move or shake it. This behavior can cause dimming of the lamp or permanently damage it.
- Bluetooth: Turn on the power of speaker. Turn on your smart phone's Bluetooth function, and search the device name "BT LAVA LAMP" and connect to it. Then you can enjoy music from your smart phone.
- If using the AUX IN function, connect the included AUX cable to the port on the side of the speaker, then connect the 3.5mm auxiliary jack at the other end of cable to your smartphone's / tablet's / laptop's audio jack.

Product Specifications:

Bulb Power: 30W

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

"CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment."

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate

radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
