- ② Input: 9V/2A~9V/3A
- ③ Output: Earphone: DC5V/1A(Max)
Phone wireless charging pad: DC5V/1A(Max)

Parts List

Note: If parts in the packing box don't check with the list, please contact us in time.

2in1 Stand *1

Type-C Cable *1

Type-C Cable must be connected to the QC charging port of your adaptor (Adaptor Not Included)

Height Adjustable Coils
Perfect Compatibility
For any Phone Size

**Reasons why the device
doesn't work**

1. Covered by something (metal object)

2.High temperature protection:
Try again later.

3.Adapter failure

We recommend adapter with QC2.0 standard or above (Can be compatible with 3V/1A power adapter, But the charging speed will be extremely slow).

4.Other reasons

If the problem still cannot be solved, please contact us.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device has been tested and found to comply with the requirements of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment. This device can cause harmful interference to radio communications, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Move the equipment away from the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance 20cm from the radiator your body. Use only the supplied antenna.
