In the off state, press and hold the key for 5 seconds until the switch light from flashing light to be long light state, than the table lamp resetting completed.

*The table lamp need to be resetting when using in a new net environment, and than re-connect the net.

Basic Spec.

Model : CD001
Working Temperature : -10~+60℃
Woking humidity : 0%-85%RH
Lamp input : 5V/3A;9V/2A;12V/1.5A
Rated input : 100-240V~50/60Hz0.2A
Max power : 18W

Color temperature range : 2700-6500K
Lumens : 300Lemen
Lifespan : About 25000 hours
Power factor : 0.4
Support : Android & iOS
Wireless connections :
Wi-Fi IEEE802.11 b/g/n 2.4GHz

Features

LED lighting

Remote control

Wired charging

Voice control

WIFI cloud service

Care for your eyes

Brightness adjusting

Cold and warm light adjustable

Scene change

Time switch

Delay light off

Mobile phone control

Artificial intelligence

Firmware upgrade

Product Warranty Instructions

After-sale service of the AI smart table lamp products strictly follow the "Law of the PRC on the protection of the rights and interests of consumer", "Law of the PRC on the product quality" to implement the after-sale three-package service, the content is as below:
1.Within 7 days from the date you receipt the table lamps, any performance failure which listed on the "Product Performance Failure Table" appeared, you can enjoy the return or replacement service for free after being determined by the after-sale service center.
2.Within 8-15 days from the date you receipt the table lamps, any performance failure which listed on the "Product Performance Failure Table" appeared, you can enjoy the replacement or repair service for free after being determined by the after-sale service center.
3.Within 12 months from the date you receipt the table lamps, any performance failure which listed on the "Product Performance Failure Table" appeared, you can enjoy the maintenance service for free after being determined by the after-sale service center.

Non-warranty regulations

- 1.Can not be disassembled without authorization
- 2.Exceeded three packs of validity
- 3.Damage due to the force majeure
- 4.Incompatible with the failure which shown on the products performance failure table
- 5.Man-made causes damage to the product and its accessories, like use the dimmers, using the lamps on "non-rated voltages, non-standard adapters, non-prescribed environments, etc".

Product performance failure table

Name	Performance failure
Table lamp body	The light is not bright
	Can't search table lamp
	Touch function failure
	Reset button failure
Adapter	Unable to power the table lamp

02 Instructions

Installation Steps:

- 1.Please confirm whether the voltage meets the working voltage of the product before using. Inappropriate voltage may damage the product and bring potential safety hazards.
- 2.LED module can not be replaced, pls do not dismantle the product by yourself
- 3.The lamp generates heat during operation. Please keep the surrounding air convection for heat dissipation.
- 4.Pls do not use non-standard adapters to avoid product damage or safety hazards

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator your body: Use only the supplied antenna.
