FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

OVERVIEW

- Air vent clip
- Clip pusher
- Cap
- Qi2 magnetic wireless charging car mount
- LED indicator
- USB-C port

INSTALLATION AND USE

- Twist the cap clockwise to open. Insert the clip into the cap.
- Twist the cap counter-clockwise to lock the clip.
- Connect the USB-C cable to the USB-C port and the power supply in your car.
- Push down the clip pusher to mount the charger to the car air vent.
Note: Pushing down the clip pusher is necessary also for removal.
- Place your MagSafe compatible or other magnetic device to the wireless charging car mount for charging.
Note: To ensure charging efficiency, remove phone case before charging.

SPECIFICATIONS

Model name	Qi2 Magnetic Wireless Charger Car
Output	15W Max.
Input	5.0V~3.0A, 9.0V~3.0A
Compatibility	Apple MagSafe and other devices compatible with Qi2 standard
Dimensions	60 x 79 x 82 mm
Weight	123 g
Included in the packaging	- Magnetic wireless car charger - USB-C to USB-C cable - Air vent mount - User manual
