| <p>Solder<br/>Board-Component View<br/>1</p> |  A photograph of a small green printed circuit board (PCB) component. The board is rectangular with several solder joints and small electronic components. It is placed on a blue background next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 100 mm marks.               |
| <p>Solder<br/>Board-Component View<br/>2</p> |  A photograph of a small green printed circuit board (PCB) component, similar to the one in View 1, but with a yellow component and a larger silver component attached. It is placed on a blue background next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 100 mm marks. |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>3</div> |  A photograph of a green printed circuit board (PCB) populated with various electronic components. The components include a large black toroidal inductor, several electrolytic capacitors, a yellow component, and various surface-mount components. The PCB is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm horizontally and 0 to 60 mm vertically. |
| <div>Solder<br/>Board-Component View<br/>4</div> |  A photograph of a green printed circuit board (PCB) showing the underside or a different side. It features several surface-mount components, including a small black component and various solder joints. The PCB is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm horizontally and 0 to 70 mm vertically.                                           |
