

1.

- * **en** Remove the insulating films, place the earbuds into the charging case, and close the lid to activate them before first use.
- fr** Retirez les films isolants, placez les écouteurs dans le boîtier de charge, et fermez le couvercle pour les activer avant la première utilisation.
- it** Rimuovi le pellicole isolanti, inserisci gli auricolari nel caso di ricarica e chiudi il coperchio per attivarli prima del primo utilizzo.
- es** Retira las películas aislantes, coloca los auriculares en el estuche de carga y cierra la tapa para activarlos antes del primer uso.

2.

The diagram shows the earbuds being charged in their case. Below the case, there is a battery level indicator showing a full battery. To the left of the battery indicator is a lightning bolt icon and a light bulb icon, indicating charging status. Above the battery indicator is a clock icon with "2h" next to it, indicating the charging time.
