Product Information

Safety and Compliance Information

Using Your Device Around Other Electronic Devices

The Device, uses, and can radiate radio frequency (RF) energy and, if not used in accordance with its instructions, may cause interference to radio communications and electronic equipment. External RF signals may affect improperly installed or inadequately shielded electronic operating systems, entertainment systems, and personal medical devices.

While most modern electronic equipment is shielded from external RF signals, if in doubt, check with the manufacturer. For personal medical devices (such as pacemakers and hearing aids), consult with your physician or the manufacturer to determine if they are adequately shielded from external RF signals.

There are some places where RF signals could constitute a hazard, such as health care facilities, and construction sites. If you are not sure, look around for signs indicating that two-way radios or mobile phones should be turned off.

Battery Safety

HANDLE WITH CARE. Your device and charging case contain rechargeable lithium-ion polymer batteries and should be replaced only by a qualified service provider. Do not disassemble, open, crush, bend, deform, puncture, shred or attempt to access the batteries. Do not modify or remanufacture the batteries, attempt to insert foreign objects into the batteries, or immerse or expose them to water or other liquids.

The charging case uses the micro-USB cable provided and a USB charger or USB port that is compliant with safety standards, such as IEC 60950.

AVOID PROLONGED LISTENING AT HIGH VOLUME. Prolonged listening of the player at high volume can damage the ear of the user. To prevent possible hearing damage, users should not listen at high volume levels for long periods.

FCC Compliance Information

Radio Frequency Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications that are not expressly approved by the party responsible for compliance could make the device no longer comply with the FCC Rules.

Information on your device is on file with the FCC and can be found by inputting your device's FCC ID, which can be found on the back of Device charger, into the FCC ID Search form available at transition.fcc.gov/oet/ea/fccid.

Information Regarding Exposure to Radio Frequency Energy

The output power of the radio technology used in the Device is below the radio frequency exposure limits set by the FCC.

Recycling Product Properly

In some areas, the disposal of certain electronic devices is regulated. Make sure you dispose of or recycle the Products in accordance with your local laws and regulations. For information about recycling the Products, go to following website: www.amazon.com/devicesupport.

Product Specifications

Earbuds:

Left earbud Model Number: TY0929L (FCC ID: 2AR3T-5338, IC: 24601-5338)

Right earbud Model Number: TY0929R (FCC ID: 2AR3U-7324, IC: 24604-7324)

Electrical Rating: 5VDC 400mA max

Temperature Rating: 0-35°C

Storage Temperature Range: -10-45°C

Charging Case:

Charging case Model Number: T1016EY

Electrical Rating: 5.2VDC 1.0A max

Temperature Rating: 0-35°C

Storage Temperature Range: -10-45°C

Ports: Micro-USB

Operating Frequency and Maximum Radiated Output Power:

BT (2402-2480 MHz: 11 dBm)

BLE (2402-2480 MHz: 11 dBm)

NFMI (10.579 MHz: -45.88 dBuA/m@10m)

EU Compliance Information

Hereby, Amazon.com Services, Inc., declares that this device is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:

www.amazon.com/device_eu_compliance.

Prevention of Hearing Loss

To prevent possible hearing damage, do not listen at high volume levels for long periods.

SAR Compliance

This device meets the EU requirements (1999/519/EC) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.

Recycling

■ In some areas, the disposal of certain electronic devices is regulated. Make sure you dispose of or recycle the Device in accordance with your local laws and regulations. For information about recycling the Device, go to [website].
