DOCK-170* INSTALLATION INSTRUCTIONS

Model: DOCK-170*-WC15W01

Rated Input: 125V ~ 60Hz, 15A

- AC Output (AC only): 125V ~ 60Hz, 15A
- AC Output (while using USB or Wireless Charger): 125V ~ 60Hz, 13.6A

Outputs:

- 2 x Tamper-Resistant AC Outlets
- USB Total Output: 66W Max
- USB-A: 5-12V DC, 0-3.0A (18W Max.)
- USB-C: 5-21V DC, 0-3.3A (66W Max.)
- Wireless Charger: 15W Max.

US Pat.# USD1023949S1, CN Pat.# CN212162180U

CAUTION:

To prevent the risk of fire and electric shock, please be sure to read all instructions before installing or using this unit.

WARNING:

To reduce the risk of fire, electric shock, or injury to person:

- Use only indoors and in dry locations
- Do not use with an extension cord
- Do not plug in devices that exceed a combined total of 15A (1800 watts)
- Do not open or attempt to open the unit for any reason

INSTALLATION:

- Attach the mounting bracket to the dock by using four included Phillips screws.
- For table-top mounting options, turn the thumb screw on the mounting bracket counterclockwise to open the clamp. Using the thumb screw to adjust the width as it fits the thickness of the tabletop. The mounting bracket is compatible with tabletop thickness up to 1-3/4" (45mm).
- For under-table mounting option, place the dock under table at desired position, then using three self-tapping or wood screws to secure the dock to the table (Screws not included).
- Insert power plug into a grounded outlet

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device should be installed and operated with a minimum distance of 20cm between the radiator and your body.
