Specifitions

- Dimensions: 120*11*20mm
- Product weight: 32g
- Display screen: 0.96"
- Resolution: 80*160 dpi
- CPU: nRF 51802
- Battery: 85mAh
- Standby time: 7-15 days
- Working time: 3-7 days
- Waterproof: IP67
- Body material: ABS+PC
- Band material: TPU
- Compatibility: IOS9.0+Android 4.4

Contents of the pageage

- 1x Smart Bracelet
- 1x User's Manual
- 1x Charging line

FAQ

1. The wristband cannot be found when pairing?
Please make sure your phone is Bluetooth enabled. And when the phone is pairing in the "support range", please make sure that the distance between the wristband and the cellphone is within 0.5 meters. The Bluetooth communication range is within 10 meters after pairing.

2. Why is Bluetooth not connected occasionally?
Some mobile phone's Bluetooth service will have an exception when it is restarted, which leads to such a situation. Usually you can reset the Bluetooth or restart the phone to establish a normal connection.

3. How to update the firmware of the wristband?
After the wristband is connected to your cellphone, please enter the "wristband management" in the application and choose "firmware update".

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
