RE: Long Term Confidentiality Request For:

FCC ID	Model Number
2ARLF-FLEX	Sentinel Flex

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the block diagrams, schematics, operational description, and Internal photos required to be submitted with this application be permanently withheld from public review.

These documents contain detailed system and equipment descriptions and related information about the product, which OnAsset Intelligence Inc. considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, OnAsset Intelligence Inc. feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

The circuit board is not accessible to a user as it is enclosed within a covering using a strong adhesive.

Please contact me if there is any information you may need.

Sincerely,

Dennis S. Key
