声波电动牙刷

使用说明书
产品型号:LJ-ST206

请仔细阅读本产品的说明书。

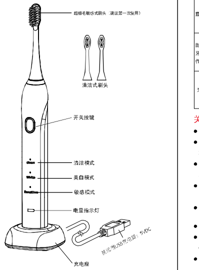
警告:

1. 每次使用前都要检查是否有明显的损坏。如果损坏或严重摔落，请勿使用。
2. 在您连接电源线之前，请检查本地的电源电压是否与产品所表示的电压相符。
3. 如果充电座有任何损坏，请勿使用。
4. 本产品（含牙刷刷头、握柄）若有任何破损迹象，请立即停止使用。
5. 充电座不可在室外或高热表面附近使用。
6. 请勿在泡澡或淋浴时使用。
7. 如果您的口腔或牙龈在过去的2个月内曾动过手术，请在使用本牙刷前咨询您的牙医。
8. 如果您在使用本牙刷后有出血状况，或出血状况延续超过1星期，请向您的牙医咨询。
9. 请勿使用非制造商推荐的牙刷刷头。
10. 若您身上装有心率调整器或曾装入其它的装置，请在使用前咨询您的医师或植入装置的制造商。
11. 本产品只适应于清洁牙齿、牙龈与舌头，请勿用作其他的用途。用后若感到任何不适或疼痛，请停止使用并寻求医生协助，若您有医疗方面的顾虑，使用本牙刷时请先咨询您的医师。
12. 本产品不适合儿童、婴儿和不会操作者使用，除非他们得到其安全负责人的本产品使用方面的监督或指导。
13. 请放置在儿童接触不到的地方，不可当玩具使用。
14. 如果牙膏内含有过氧化氢、小苏打或重碳酸盐（常见于美白用牙膏），请在刷牙完毕后以清水彻底清洗刷头。

产品规格:

产品名称	声波电动牙刷
产品型号	LJ-ST206
工作电压	100-240V/AC
额定功率	2W
开关方式	轻触式开关
显示方式	LED灯
显示内容	Clean/White/Sensitive+电量指示
震动频率	31000-47000次/分钟
工作时间	约240分钟（敏感模式）
充电方式	感应式充电（插头接通用USB充电器：5VDC）
充电时间	约3.5小时
充电电流	350mA
电池规格	锂电池/ICR14500/650mAh
电量提醒	低电量，电量指示灯闪烁显示
防水等级	IPX7

配件规格:



故障诊断:

情况	可能原因	措施
震动强度减弱	1、牙刷强压在牙齿上；2、刷头与主体接触太紧密。	1、将刷头轻轻地放在牙齿上；2、从手柄上取下刷头，重新套在输出轴上，牙刷头要与手柄之间保持一定的距离。
即使已充电，牙刷也只能工作很短的时间	1、主体没有垂直放在充电器上导致没有充进电；2、电量不足。	1、充电时间不够请继续冲电。2、已有6个多月没有使用本产品，在使用前请充电。
牙刷不工作	将主体垂直放在上面使其底部与充电器相接触，并确认红色指示灯闪烁。	1、请充电

关于充电:

- 首次使用之前，请启动牙刷，如有余电请用完再充电。
- 6个月以上没有使用，请对牙刷充电3.5小时以上，充满电后，牙刷将可连续使用60天。
- 电量未用完即充电，将会大大缩短锂电池寿命。请用完电量再充电。
- 使用过程中，如充电指示灯连续闪烁数秒后停止表示此牙刷电量不足。
- 请将牙刷主体对准插口放置于充电座上，接通电源并先确认充电环境安全。
- 充电过程中，指示灯闪烁，电池充满电后，指示灯长亮。
- 如果很长时间没有充电，那么再次充电时指示灯会等6-20分钟才会亮，属于正常现象。
- 您至少一年将其彻底放电一次。放电时拔下充电插座，并正常使用直至电池电量耗尽。

关于保养:

清洗刷头

1. 每次使用后请清洗刷毛和刷头，并自然风干。
2. 不要拉扯刷毛，这样会使其容易变形，从而导致脱落。

清洗牙刷主体

1. 用水清洗，并自然风干。
2. 请勿将其浸入水中。
3. 不要用高于40℃的水或酸性清洁液清洁。

清洁充电座

1. 用软布将充电座上的脏污擦拭干净。
2. 清洗充电座前，务必将电源插座拔出，否则容易导致触电。
3. 用干布擦拭USB接口，避免短路。

更换刷头

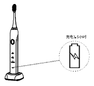
1. 牙医建议每三个月更换一次刷头。

刷牙时间:

1. 牙医建议，每次刷牙需达2分钟。
2. 使用中，每隔30秒，您会感到短暂的停顿，这是提醒您应该均衡清洁口腔的四个区域，以达到最佳的清洁效果。

使用步骤

第一步
首次使用请将余电用完，再将电动牙刷充电3.5小时左右至饱和电量。



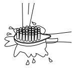
第二步
将牙刷头小心插入输出轴，牙刷头和主体间必须留有一些间隙，这是牙刷头正常震动所必需的。

第三步
挤适量牙膏在刷头上，先将其浸湿后再放入口中，再启动牙刷。

第四步
刷毛与牙龈线成45度缓慢移动牙刷。

第五步
轻握牙刷主体，以圆周缓慢移动，切勿用力按压或擦洗。

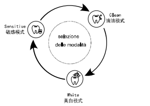
第六步
刷完后请用清水漱口，并清洗牙刷头。



3种模式专业护理:

该产品拥有清洁、美白、敏感3种刷牙模式，为您提供量身定制的刷牙体验，用户可随心切换，全方位护齿美齿。

a. 清洁模式：清洁口腔有效去除牙菌斑。
b. 美白模式：47000RPM强效美白增亮。
c. 敏感模式：针对敏感牙齿和牙龈的柔和模式。



A. 在产品电池还有电的情况下，任意时候点按开机键即可开机，档位为上次关机时保持的档位。再点按可切换档位，依次循环切换三个档位。长按0.6秒以上即关机。

B. 在充电情景下可以长按开机键6秒进入放电工作方式切换功能。进入后，主机保持放置在充电座上，此时点按开机键可以根据显示的档位灯来切换到相应的方式，选定方式后，将主机移离充电座等指示灯熄灭即完成设定。

方式一：默认放电方式。放电时每隔30秒马达振动减弱一下，总共工作2分钟后自动停机。

方式二：在开机后任意时刻主动按停（记工作M分钟），那么下次开机一个周期工作时间将由2分钟增加上次按停的时间M。

方式三：开机后没有放电时间限制，一直每隔30秒提示一下，一直工作到电池没电。

注意:

1. 请勿和家人或他（她）人共用刷头。
2. 请勿在存放时将电源线紧紧地缠绕在适配器上。
3. 勿在充电座上放置金属物体，如硬币或回形针等。
4. 如果长时间不用，请拔掉电源，以免引起火灾或危险。

注：即使是健康的牙齿，开始使用牙刷时也可能出现刺痛或轻微出血的现象。这是因为首次使用时，牙龈还不习惯这种刺激。这种症状一般在一到两周停止。如果超过两周，则可能表示您的牙龈异常，在这种情况下，应停止使用本牙刷并咨询牙科医生。

禁止:

1. 请勿将充电座浸入水中或任何液体中。
2. 若清洁后，请确认充电座电源插口完全干燥，方可再次接通电源充电。
3. 本产品含有内置充电电池，请勿将其投入火中、加热或者在高温处充电、使用或放置。
4. 请勿敲打或跌落本产品，如因碰撞或摔落等原因导致本产品受损，切勿再次使用。
5. 请勿自行改造、拆卸或修理本产品。本产品在充电时请远离电磁场（如电磁炉等）。

保修及服务

此产品是一件设计精良、用高品质元件制造的电器，在正常使用及保养下应能发挥其优越性能，在规定时间内若发生任何因制造工艺或元器件造成之损坏，请联系经销商获得维修或更换服务。

以下情况将不在保修服务范围之内:

1. 使用不当引起的人为损坏，例如接入不适当电源，使用不适当配件、不适当之安装、不依说明书使用、错误使用或疏忽而造成损坏等。因运输及其他意外而造成之损坏。非经本公司认可之维修和改装。其他因不可抗力（如自然灾害、电压异常等）造成的损坏。
2. 一般家庭以外使用（如工业、商业用）而造成的损坏。
3. 正常使用引起的产品老化、磨损等，但不影响产品的正常使用。

保修条款

1、商品售出之日期起一个月内，如发生性能故障，商品本身及外包装须保存完整（无划痕），可更换同种型号的商品（须经检测）但不包括人为损坏。
2、商品自售出之日起保修一年，配件不在保修范围之内
3、保修服务只限正常使用下有效。
4、一切人为损坏、自行拆机、拆封标、使用不当等一切外表的损坏，不在保修范围内，保修时须提供本卡，未能提供本卡或私自涂改本卡，本公司有权作非保修处理。

Electric Toothbrush

User Manual
Model No: LJ-ST206

Please read the manual of this product carefully before using

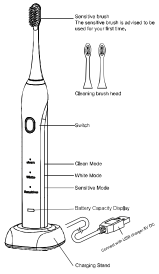
Warning:

1. Please check if it has any obvious damage every time before use. Do not use it if there is a damage or bad flop.
2. Please check if the local power voltage identifies with the voltage marked on the electric toothbrush before you connect the USB charging line.
3. Do not charge it if the charging stand has any damage.
4. Please stop using it immediately if this product(including the toothbrush head and grip) has any signs of damage.
5. The charging stand can not be used outside or nearby the extremely hot surface.
6. Do not use it while you are taking a bath or shower.
7. Please consult your dentist before you use it if you have had an operation on your mouth or gums over the past 2 months.
8. Please consult your dentist if you have a bleeding or even the bleeding lasts over 1 week after using it.
9. Do not use a toothbrush head that a non manufacturer recommends.
10. Please consult your doctor or the manufacturer that implants the device before using if you are implanted a pacemaker or were implanted other devices.
11. It is only used for cleaning teeth, gums, and tongue. Do not use it for other purposes. Please stop using and turn to the doctor if you feel unwell or painful after using. Please consult your doctor first before using if you have any concerns about health care.
12. It is improper for children, babies, and operators who can not use this product unless they are supervised or guided while using by their safety directors.
13. Please put it beyond children's and babies' reach. Do not use it as toys.
14. Please clean the toothbrush head thoroughly with soaps and rinsing after finishing brushing your teeth if there is hydrogen peroxide, sodium bicarbonate, or hydrocarbonate(which are common in white toothpastes) in the toothpaste.

Product Specifications:

Product Name	Electric Toothbrush
Product Type	LJ-ST206
Working Voltage	100-240V/AC
Rated Power	2W
Switching Pattern	Touch Switch
Display	LED
Display Content	Clean/white/Sensitive+Battery Indicator
Vibration Frequency	28000-40000 times/minute
Working Time	About 240 minutes (Connect with USB charger.5V DC)
Charging Mode	Inductive Charging
Charging Time	About 3.5 hours
Charging Current	350mA
Battery Specification	Lithium Battery/14500/600mAh
Power Warning	When the power is low, the power indicator light flashes.
Waterproof Grade	IPX7

Part Specifications



Trouble Diagnosis:

Conditions	Possible Reasons	Measures
The intensity of shaking is weakening.	(1)The toothbrush is pressed strongly on your teeth. (2)The toothbrush head is too close to the body.	(1)Put the toothbrush head on your teeth gently. (2)Take the toothbrush head down from the hand shank and put the toothbrush head in the tailshaft again. Pay attention that the head should keep a certain distance away from the shank.
The toothbrush Work for a very short time even if it has been charged.	(1)The body has not been put on the charger vertically so that the toothbrush is not charged at all. (2)The battery power is low.	(1)Continue charging the toothbrush because the charging time is not enough. (2)Please charge it before using when the unit has not been used for over 6 months.
The toothbrush fails to work	Charger should be connected with the bottom of the body vertically and make sure the red indicator light is up.	Charge the toothbrush.

About Charging:

1. Start the toothbrush before you first use it. Use up the residual amount of electricity and charge the toothbrush .
2. If you have not used it for over 6 months. It will be able to be used continuously for 60 days after being fully charged.
3. Charge the toothbrush after using up the electricity because the lithium battery life will be greatly shortened if you charge it when there is some electricity left.
4. In the using process, the toothbrush is in low power if the charging indicating light blinks several seconds continuously and stop working.
5. Put the toothbrush body on the charging stand and confirm that the charger has been connected to the power supply. At this time, the indicating light turns red, showing that the charging begins.
6. In the charging process, the indicating light blinks. When the battery is fully charged, the indicating light is on all the time.
7. It is normal for the indicating light to glow after 6 to 20 minutes when the toothbrush is recharged because the toothbrush haven't been charged for a very long time.
8. Discharge the toothbrush thoroughly at least once a year. Unplug the charging stand and exhaust the battery power by using the toothbrush normally when you discharge the brush.

About Maintenance:

Clean the Toothbrush Head:

1. Clean the brushing and toothbrush head and after you use the toothbrush every time. let it natural drying
2. Do not pull the brushing so that it will not be transformed easily and fall out.

Clean the Toothbrush Body:

1. Clean it with water and let it natural drying
2. Do not immerse it in water.
3. Do not clean it with water above 40 degrees or acidic cleansing solution.

Clean the Charging Base

1. Clean the smudginess on the charging stand and its shield with soft cloth.
2. Do unplug the outlet before cleaning it. If not, an electric shock will be easily caused.
3. Clean the plug with dry cloth in order to avoid the short circuit.

Change the Toothbrush Head:

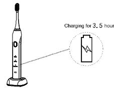
Dentists advise that the toothbrush head should be changed every 3 months.

Time for Brushing Your Teeth:

1. Dentists advise that you should brush your teeth for 2 minutes every time.
2. When using, you will feel a transitory pause every 30 seconds, which reminds you to clean the four areas in your mouth evenly in order to achieve the best cleaning effects.

Using Steps:

Step 1: Put the electric toothbrush into the charging base and charge it for 3.5 hours when you first use it.



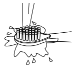
Step 2: Insert the toothbrush head into the tailshaft carefully. Pay attention that a gap must be left between the head and the body, which is necessary for the head to vibrate normally.

Step 3: Squeeze moderate toothpaste on the toothbrush head, soak the head, put it into your mouth, and start the toothbrush.

Step 4: Move the toothbrush slowly at an angle of 45 degrees between the brushing and your gumline.

Step 5: Hold the toothbrush body gently and move it slowly in a circular motion. Do not press or clean it forcibly.

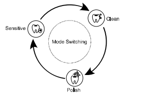
Step 6: Rinse your mouth with clean water and wash the toothbrush head after you brush teeth.



3 Patterns of Professional Nursing:

This product has 3 tooth brushing modes: clean, white, and sensitive, providing customized tooth brushing experience for you.With it, you can switch the modes at your will in order to care and beautify your teeth in an all-round manner.

a.Clean: eliminate dental plaque thoroughly(Standard Mode).
b.White: Powerful whitening and brightening at 47000RPM
c.Sensitive: A extremely gentle mode specific to the sensitive teeth and gums.



A.In the case that there is still power in the battery of the product, at any time point press the power on button can be started up, the gear position is the last shutdown maintain.Click the switch gear, and then rotate the three gears.Long press above 0.6 seconds to shut down.

B. Long press the power on button for 6 seconds to enter the discharge operation mode switch function in the charging situation.After entering, the host machine will be placed on the charging stand. At this point, press the power button to switch to the corresponding mode according to the displayed shift light. After selecting the mode, move the host machine away from the charging stand and other indicators will be put out to complete the setting.

Mode 1: default discharge mode.The motor vibrates every 30 seconds during discharge, and stops automatically after 2 minutes of operation.

Mode 2: at any time after starting the machine, press the "stop" button (M minutes). Then the working time of the next cycle will be increased from 2 minutes to M when pressing the "stop" button last time.

Mode 3: there is no time limit for discharging after starting up. Please give a prompt every 30 seconds until the battery is dead.

Notice:

1. Do not share the toothbrush head with your family or others.
2. Do not intertwine the power line with the adapter tightly when you deposit the toothbrush.
3. Do not put metal objects (such as coins, clips and so on) on the charging stand.
4. Please pull the plug in order to avoid fire or danger if you have not used the toothbrush for a long time.

Notice:

It is possible for you to have the prickling or slight bleeding when you begin to use the toothbrush even if your teeth are healthy. This is because the gums is not used to this stimulus at your first use. These symptoms will usually cease within 1 or 2 weeks. If they last over 2 weeks, then your gums may have some problems. Under this circumstance, you should stop using the toothbrush and consult the dentist.

Forbidding:

1. Do not immerse the charging stand in water or any liquids.
2. Please ensure that the power plug of the charging stand is totally dry after cleaning the toothbrush and then connect the plug to the power supply.
3. This product contains built-in rechargeable batteries, so do not put it into fire, or heat it. Do not charge, use or put it in high-temperature places.
4. Do not strike or flop this product. Do not use it again if damaged because of the bump and flop.
5. Do not remould, disassemble, or fix this product by yourself.
6. Please keep this product away from the strong electromagnetic field (like the induction cooker) when you are charging it.

Warranty and Service

This product is a well-designed, high-quality components manufactured electrical appliance. It plays superior performance under normal use and maintenance,if there's any damage caused by manufacturing process or components, please contact the dealer for repairing or replacement service.

The following conditions are not covered within the warranty service:
1.Artificial damage caused by improper use, such as improper access to power supply; the use of inappropriate accessories; improper installation; violation with the user manual, damage caused by misusing or negligence. Damage caused by transport and other accidents. Maintenance and modification not approved by our company. Other damagecaused by force majeure (such as natural disasters, voltage anomalies, etc.)
2.Damage caused by using it beyond normal home use(eg. industrial, commercial).

3.Appliance aging and wear that does not affect the normal use of this product.For more information or services, please visit www.toptrend-intl.com.

Note

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
