

**Download the App**

Scan the QR code or visit the website to download the app.

**Charging and Active**

Use the magnetic charging cable to charge the watch. The watch is active when the red light is on.

**Pairing**

1. Turn on the watch and enter the pairing mode.

2. Open the app on your smartphone and select the watch.

3. Follow the on-screen instructions to complete the pairing.

**Use the Touch Screen**

Tap the screen to wake the watch. Swipe the screen to scroll through the menu.

**Smart Watch Features**

**Heart Rate**

Monitor your heart rate 24/7. The watch uses optical sensors to measure your heart rate.

**Smart Watch Features**

**Smart Reply**

Receive notifications and reply to messages directly from the watch.

**Smart Watch Features**

**Smart Fitness**

Track your daily steps, distance, and calories burned.

**Smart Watch Features**

**Smart Weather**

Check the weather forecast and receive alerts for severe weather.

**Smart Watch Features**

**Smart Music**

Control your music player and download music to the watch.

**Smart Watch Features**

**Smart Games**

Play casual games directly on the watch.

**Smart Watch Features**

**Smart Health**

Monitor your blood pressure and blood sugar levels.

**Smart Watch Features**

**Smart Sleep**

Track your sleep patterns and receive sleep quality reports.

**Setting up Your Device**

Follow the steps to set up your smartwatch, including pairing with your phone and configuring settings.

**General Info & Specifications**

General Information: Model, Color, Material, Dimensions, Weight, Battery Life, etc.

**Screen Info & Specifications**

Screen Information: Size, Resolution, Type, etc.

**Maintenance**

How to clean and maintain your smartwatch to ensure optimal performance.

**Maintenance**

How to replace the battery and other components of your smartwatch.

**The warranty and service**

Warranty information and contact details for customer service.

#### CE Maintenance

EUT Operating temperature range: -10°C to 50°C

Power supply: DC 3.7V

The device complies with RF specifications when the device used at less than 20cm from your body.

#### Declaration of Conformity

Shenzhen Chiteng Technology Co., Ltd. hereby declares that this equipment is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. This product is allowed to be used in all EU member states.

Manufacturer: Shenzhen Chiteng Technology Co., Ltd.

Address: 2/F, 4A Block, Huiye Technology Park, No. 8 Huiye Road, Guang Ming New District, Shenzhen, China

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
  - (2) this device must accept any interference received, including interference that may cause undesired operation.
- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15

of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
