

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	
EUT Housing and Board View 2	

EUT Housing and Board View 3	 A photograph showing the internal components of a mobile phone, including the main circuit board, battery, and camera module, next to a black plastic housing. A ruler is placed horizontally below the components for scale.
Solder Board-Component View 1	 A close-up photograph of a small electronic component, likely a SIM card reader or antenna, mounted on a green printed circuit board (PCB). A ruler is placed horizontally below the component for scale.

Solder Board-Component View 2	 A photograph of a small electronic component, likely a SIM card or a small PCB, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component is green with gold contacts and a small white label.
Solder Board-Component View 3	 A photograph of a larger electronic component, likely a SIM card or a small PCB, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 70 mm. The component is green with gold contacts and a small white label.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled '4', resting on a blue textured surface. The component is irregularly shaped with various electronic components, including a large black chip and several smaller components. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The ruler markings are visible from 10 to 60 mm on the left and 10 to 100 mm on the right.
Solder Board-Component View 5	 A photograph of a small green PCB component, labeled '5', resting on a blue textured surface. The component is small and rectangular with a gold-colored pad on one side. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The ruler markings are visible from 10 to 90 mm on the left and 10 to 100 mm on the right.

Solder Board-Component View 6	 A photograph showing a small green printed circuit board (PCB) component with various electronic components and solder joints. The component is placed on a blue textured surface. A black ruler with white markings is visible in the background, showing measurements in millimeters (mm) and centimeters (cm).
Antenna View	 A photograph showing the back of a smartphone with the battery cover removed, revealing the internal components. A red rectangular area is highlighted on the back of the phone, indicating the location of the antenna. A black ruler with white markings is visible in the background, showing measurements in millimeters (mm) and centimeters (cm). Two labels with red boxes and lines pointing to the antenna area are present: "WIFI/BT/GPS Ant" at the top and "GSM/WCDMA Ant." at the bottom.
