Potential problems:

Fault	Reason	Solution
Can not boot	Out of power	Charging

1. Please store this product in a cool, dry place, too cold or too hot will shorten battery's life.
2. Never use this product in heavy rain, Thunderstorms can cause equipment failures and increase the risk of electric shock.
3. Do not remove or modify the product for any reason, which may cause the product to malfunction or burn down. Please send the product to the professional maintenance.

4. Only use the charging cable that has been approved by Apple. Using a third-party or non-standard USB-C power supply may cause damage to your device. In extreme cases, it may cause explosion, and Apple's warranty is invalid.
5. Charging and discharging the battery repeatedly will lead to performance degradation over time, which is normal for all batteries.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
