Appendix I: Duty Cycle

Test Result

| Test Mode | Antenna | Channel | Transmission Duration [ms] | Transmission Period [ms] | Duty Cycle [%] | Limit | Verdict |
|-----------|---------|---------|----------------------------|--------------------------|----------------|-------|---------|
| DH5       | Ant1    | 2402    | 2.90                       | 3.75                     | 77.30          | ---   | PASS    |
|           |         | 2441    | 2.90                       | 3.75                     | 77.30          | ---   | PASS    |
|           |         | 2480    | 2.90                       | 3.75                     | 77.30          | ---   | PASS    |
| 2DH5      | Ant1    | 2402    | 2.90                       | 3.75                     | 77.47          | ---   | PASS    |
|           |         | 2441    | 2.91                       | 3.75                     | 77.47          | ---   | PASS    |
|           |         | 2480    | 2.91                       | 3.75                     | 77.47          | ---   | PASS    |
| 3DH5      | Ant1    | 2402    | 2.91                       | 3.75                     | 77.53          | ---   | PASS    |
|           |         | 2441    | 2.91                       | 3.75                     | 77.54          | ---   | PASS    |
|           |         | 2480    | 2.91                       | 3.75                     | 77.54          | ---   | PASS    |
