

The image shows a green PCB for a DSP WAND. A white label at the top left contains the text: "DSP WAND ISS:1.2", "2019W06", and "56". The board features several integrated circuits, including a large central chip labeled "ANALOG DEVICES ADSP-SC557", and two smaller chips labeled "8EK15 D9PIK". There are also various passive components like capacitors and resistors, and connectors along the edges. The board is mounted on a wooden surface.
