Coolr Group Inc

FCC ID: 2ARWCCVS-0401

Date: 3/17/26
Subject: authorization for adding family models
To whom it May concern,

Statement

We, Coolr Group Inc, hereby declare that our products, marketed under the names VistaZ Power and VistaZ Go, share the identical printed circuit board (PCB) layout, radio frequency (RF) circuitry, and antenna design.
These devices will be listed in the application under the following exact model numbers:
CVP-0401 (Marketed as: VistaZ Power)
CVG-0401 (Marketed as: VistaZ Go)
The only differences between these two models are strictly related to the power supply configurations:
CVP-0401 utilizes a DC power input of up to 24V and includes an internal battery for backup power.
CVG-0401 utilizes [3xAA batteries based power supply without the 24V DC input].

Yours sincerely,

DURLABH JAIN
CTO
