Setting Up A Profile

Before starting, ensure that you have your Fi App open. Additionally, please keep your Fi Mini device, charging cable, and adaptor nearby. Once you are ready, tap **Get Started** in the app.

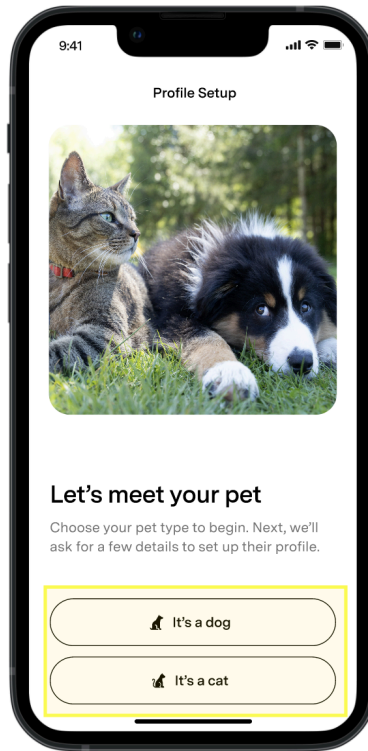

Next, you'll be prompted to enter your email address, create a password, enter your name, and your phone number. Your phone number will be used for account verification purposes and future alert notifications.

After inputting your phone number, you'll receive a text message to verify your number. Type in the verification code and **tap Next**

You'll now be prompted to select which pet you have. If you have a cat, **tap Cat** and follow the steps under the [Profile Section Steps for Cats](#) heading. If you have a dog, **tap Dog** and follow the steps under the [Profile Section Steps for Dogs](#) heading.

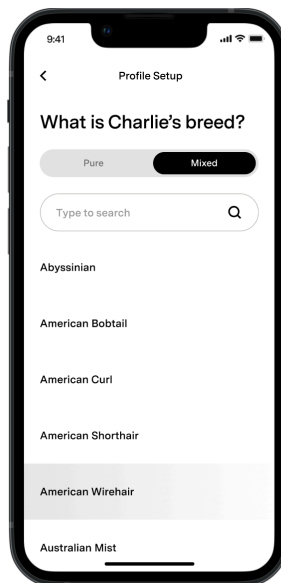

Profile Section Steps for Cats

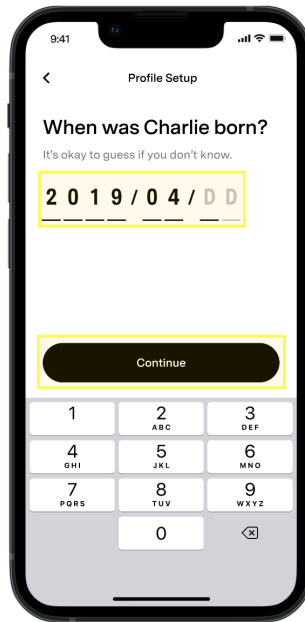

From here, enter your cat's name and **tap Continue**

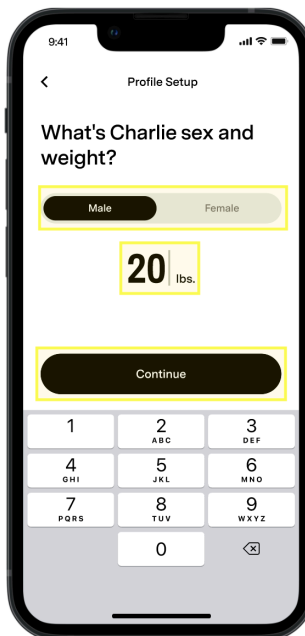

Select your cat's breed - you can choose from pure or mixed. If you aren't sure, you can make your best guess.

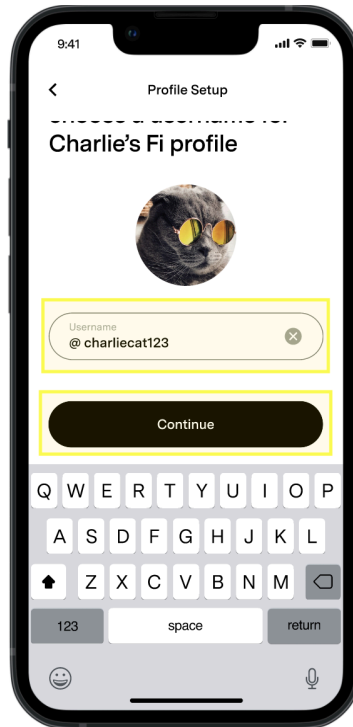

After selecting a breed, enter your cat's birth date and **tap Continue**

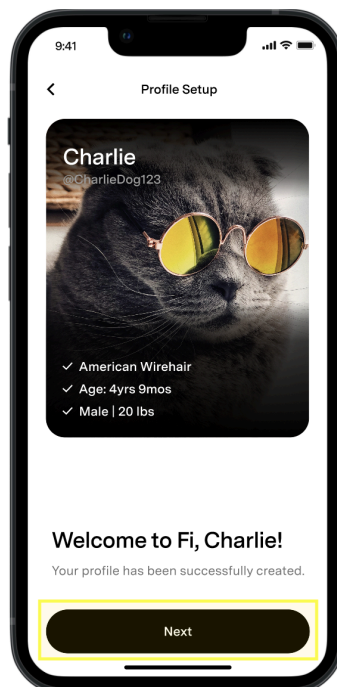

Select your cat's sex and weight, then **tap Continue**

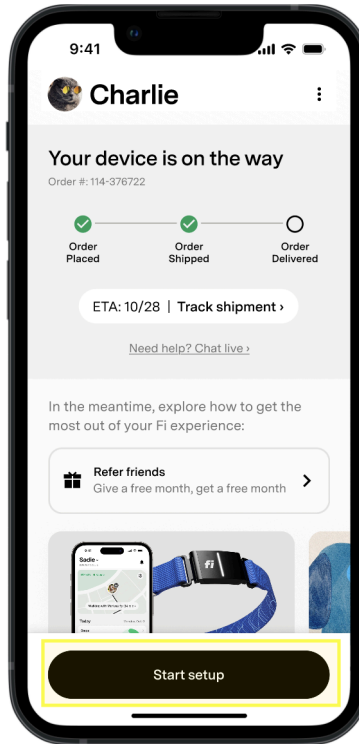

Now you can choose your cat's username - if it is already taken, you will receive an error message. After selecting a username, **tap Continue**

At this point in the process, you'll receive verification that your profile is successfully created. Now you can start the steps to activate your Fi Mini. To continue, **tap Next**

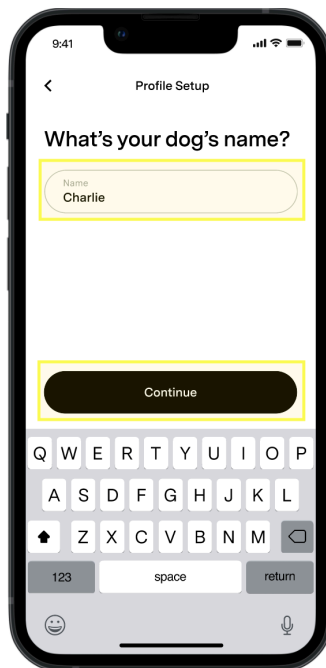

From here, **tap Start setup** to begin activating your Fi Mini device if you are ready. Follow the steps under the [Fi Mini Device Activation](#) section for further assistance.

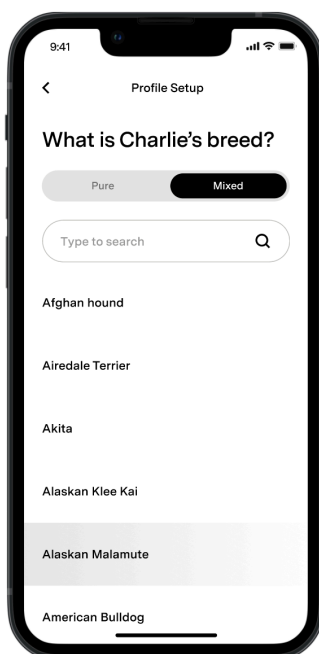

Profile Section Steps for Dogs

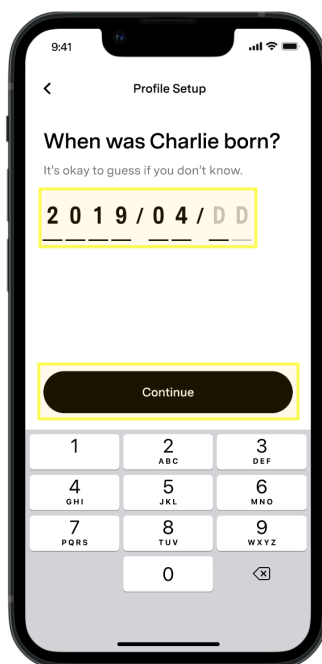

From here, enter your dog's name and **tap Continue**

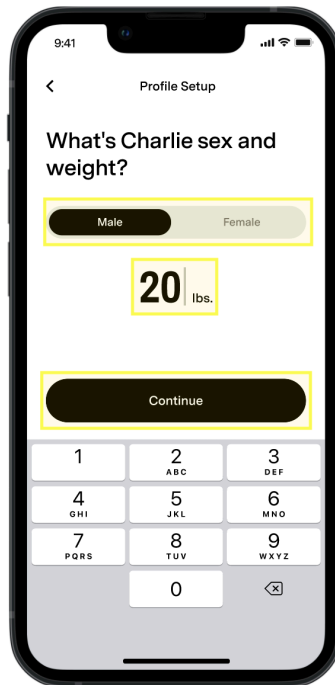

Select your **dog's breed** - you can choose from pure or mixed. If you aren't sure, you can make your best guess.

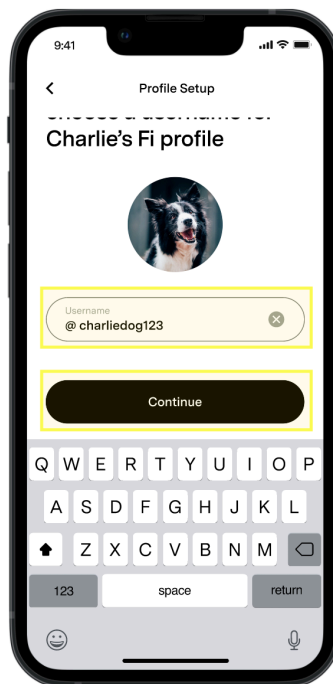

After selecting a breed, enter your dog's birth date and **tap Continue**

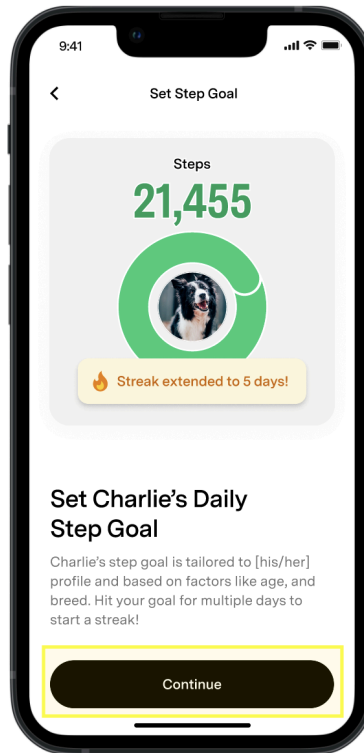

Select your dog's sex and weight, then **tap Continue**

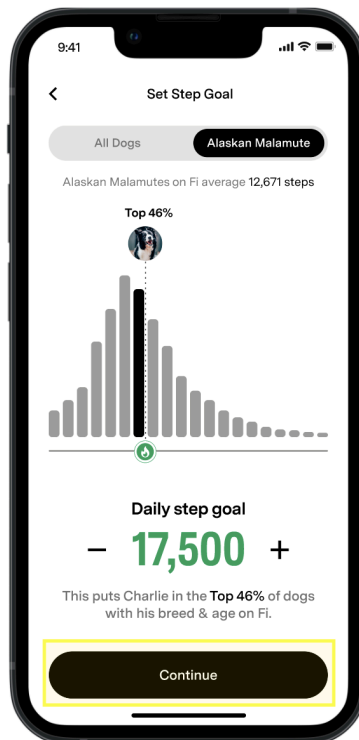

Now you can choose your dog's username - if it is already taken, you will receive an error message. After selecting a username, **tap Continue**

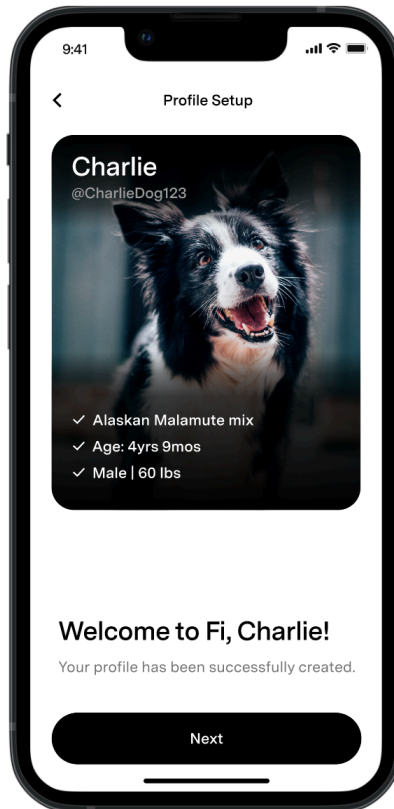

Next, you'll be prompted to input a step goal for your dog based on their breed. To choose a target step count, **tap Continue**

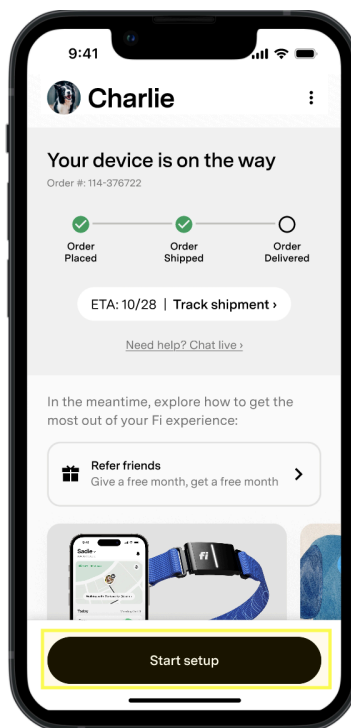

Then you can choose the default step count or change it by tapping the plus or minus signs. Once complete, **tap Continue**

At this point in the process, you'll receive verification that your profile is successfully created. Now you can start the steps to activate your Fi Mini. To continue, **tap Next**

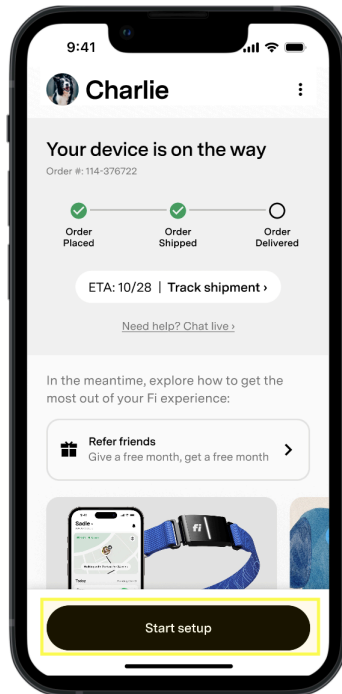

From here, **tap Start setup** to begin activating your Fi Mini device if you are ready. Follow the steps under the [Fi Mini Device Activation](#) section for further assistance.

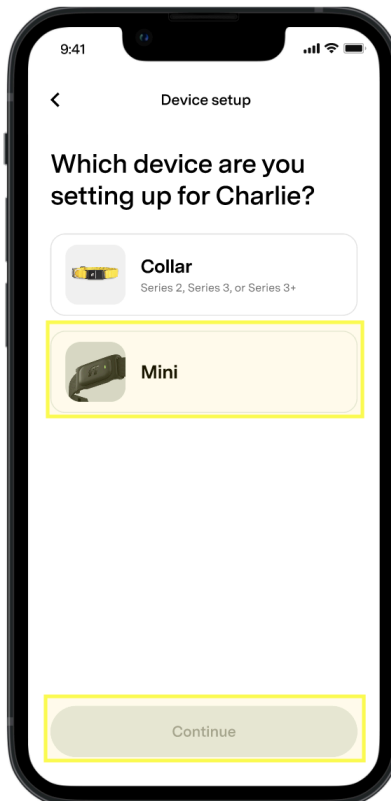

Fi Mini Device Activation

To start the activation of your Fi Mini device, **tap Start setup**

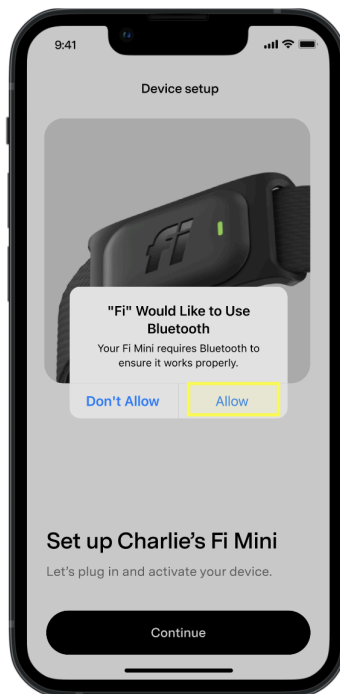

On the device selector page, **tap Mini** and then **tap continue**

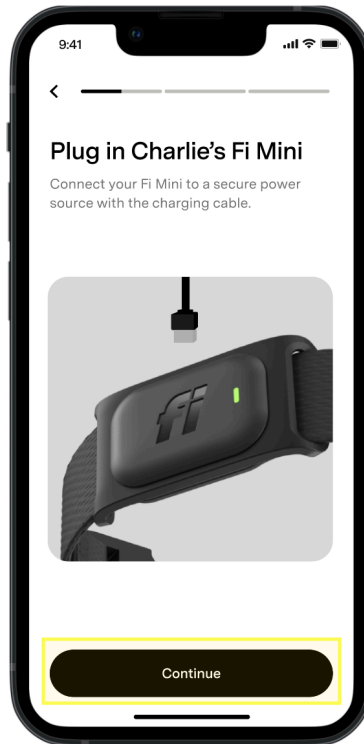

Then, **tap continue** to start.

Then, **tap Allow** to enable Bluetooth permissions. Please note that Bluetooth must be enabled on your phone to use the Fi Mini properly.

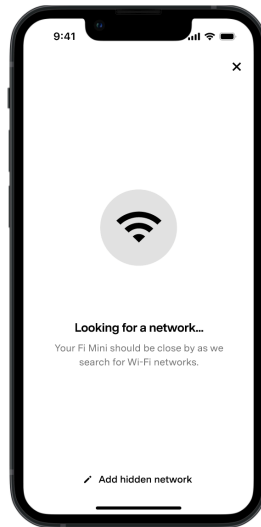

Next, you'll be prompted to **plug in your Fi Mini with the USB-C charging cable** to a secure outlet. After plugging in your device, **tap Continue**

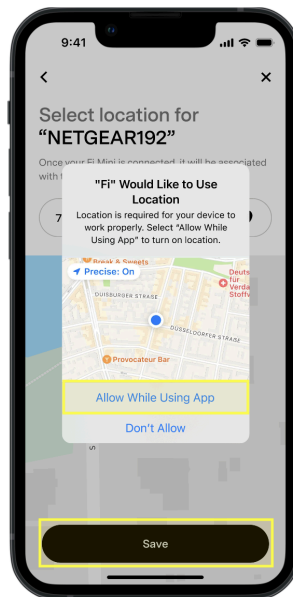

You'll see a loading circle in the Fi App screen while your phone connects to the Fi Mini. Once complete, the Fi App will confirm it successfully found your Fi Mini. Then, **tap Connect to Wi-Fi**

Your Fi App will search for Wi-Fi networks. Once yours is located, **tap on your Wi-Fi network name and enter your Wi-Fi password.**

After inputting your Wi-Fi information, you'll be prompted to enable location services. This is **required** for the Fi App to work properly. **Tap Allow While Using App** and then **tap Save**

You'll see a loading circle on the Fi App screen while the activation process is completing. Once complete, the Fi App will confirm the Fi Mini is set up. Then, **tap Next**
