

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing three small electronic components (a green PCB, a silver coin cell, and a black cylindrical component) placed on a blue surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters and centimeters.
EUT Housing and Board View 2	 A close-up photograph of a circular silver coin cell battery. The battery is marked with "LITHIUM + 3VOLTS", "muRata", "CR2032W", and "MADE IN INDONESIA". It features a logo of two stylized figures.

Solder Board-Component View 1	 A close-up photograph of a circular solder board component. The component is dark, possibly black or dark brown, with a textured surface. It features a central circular area with a small, raised, metallic-looking structure. The component is set against a light blue background.
Solder Board-Component View 2	 A photograph showing two solder board components side-by-side on a light blue surface. To the left of the components is a black ruler with white markings, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component on the left is a circular, light-colored (possibly white or light grey) board with a central circular area. The component on the right is a circular green board with a central circular area. Both components have a central circular area with a small, raised, metallic-looking structure.
