

S I Z E :65*90MM 材质：128克铜板纸 单面印刷

Wireless Charger

Please read the instructions before using the product

Parameter specification

Model: HD21-2
Input voltage/current: DC 5V/1.5A
Output power: 5W
Transmission Distances: 4 mm
Efficiency: ≥75%
Product size : L59*W51*H10.5mm

Installation

- 1. Plug the power adapter ❶ into the socket.
- 2. USB cable ❷ connects the power adapter.
- 3. Connects ❸ to the Type-C Interface.
- 4. Blue Light is wireless charging indicator light.
- 5. Put bluetooth earphone which supports wireless charging function on the launch plate correctly. Indicator light changes to green from blue if it starts to charge. The light will be blue if you remove bluetooth earphone, which means the wireless charging pad enters in a standby mode.

Indicating status and protection function

- 1. LED blue light: Standby
- 2. LED green light: Charging
- 3. Blue light flashing: Protective status

Important notes

- 1. Please remove the protective case (except the receiver case) when charging to maintain high efficiency. We recommend that you use a 2A adapter for best charging results.
- 2. Do not disassemble the charger or throw it into fire or water to avoid short-circuiting and leakage.
- 3. Do not use the wireless charger in severely hot, humid or corrosive environments to avoid circuit damage and leakage.
- 4. Do not place stuff with magnetic strip or chip (ID card, bank cards, etc) on wireless charging pad to avoid magnetic failure.
- 5. Please keep the distance at least 20cm between implantable medical devices (pacemakers, implantable cochlear,etc.) and this wireless charger, to avoid potential interference with medical device.
- 6. Please take care of the children and ensure they won't play the wireless charger as a toy, to avoid unnecessary accidents.

Warranty

There is one year guarantee for this product unless anthropogenic factor.

Packing List

- Wireless charger *1
- Headphone Case *1
- User manual *1
- Type-C cable *1

* The involved images are sketch maps , the final product as per the material subjects.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
