(2) EUT Photo

A photograph showing the disassembled components of a smartwatch. The parts are laid out on a blue surface next to a black ruler with white markings in millimeters and centimeters. The components include: a silver-colored metal case with a black dial and a small white rectangular label; a clear, circular protective lens; a black circular back cover with visible internal circuitry and gold-colored solder points; a small, rectangular, yellow and white battery with a black label; and a small black plastic component with a red wire. The ruler indicates the size of the components, with the case and back cover being approximately 40mm in diameter.
