| <p><b>Solder<br/>Board-Component<br/>View 8</b></p> |  <p>A photograph of a green printed circuit board (PCB) with numerous silver solder joints and components. The board is rectangular and placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the board, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). Another ruler is placed horizontally below the board, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).</p>                                                                                                                                                                                      |
| <p><b>Antenna View</b></p>                          |  <p>A photograph of a green printed circuit board (PCB) with various components, including a large silver component and several smaller components. The board is rectangular and placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the board, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). Another ruler is placed horizontally below the board, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A red box highlights a small component on the board, and a red line points from the text 'BT Antenna' to this component.</p> <p>BT Antenna</p> |
