View 1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'View 2'. The component is rectangular and populated with various electronic components, including several large electrolytic capacitors, a microcontroller, and other surface-mounted components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 3	 A photograph of the same green PCB component, labeled 'View 3'. This view shows the reverse side of the component, which is mostly empty except for a large silver-colored solder pad and some surface markings. It is placed on the same blue textured surface next to the same black ruler with white markings.

Solder Board-Component View 8	 A photograph of a green printed circuit board (PCB) with numerous silver-colored solder joints and components. The board is rectangular and placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the board, showing measurements in millimeters and centimeters. The board's dimensions are approximately 100mm by 100mm.
Antenna View	 BT Antenna A photograph of a green printed circuit board (PCB) with various electronic components, including a large silver-colored antenna. The board is rectangular and placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the board, showing measurements in millimeters and centimeters. The board's dimensions are approximately 100mm by 100mm. A red box highlights the antenna component, and a red line points from the text "BT Antenna" to it.
