

PRODUCT SAFETY

Safety instructions

WARNING: READ AND UNDERSTAND ALL INSTRUCTIONS. Failure to follow all instructions listed below may result in electric shock, fire and / or serious personal injury.

NOTE: Before using battery charger, read all instructions and cautionary markings in this manual, on battery charging stand, battery pack, and product using battery pack to prevent misuse of the products and possible injury or damage.

WARNING: To reduce the risk of electric shock or damage to the battery charger and battery pack, charge only the specifically designated battery pack that was included with this charger. Charging other types of battery packs may cause them to burst, causing personal injury and damage.

IMPORTANT SAFETY INSTRUCTIONS

When using electrical products, basic precautions should always be practiced including the following:

1. READ AND FOLLOW ALL SAFETY INSTRUCTIONS.
2. Read and follow all instructions that are on the product or provided with the product.
3. Do not use an extension cord.
4. Reference the National Electrical Code, NFPA 70, specifically for the installation of wiring and clearances from power and lighting conductors.
5. Installation work and electrical wiring must be done by qualified person(s) in accordance with all applicable codes and standards, including fire-rated construction.
6. Do not install or use within 10 feet of a pool.
7. Do not use in a bathroom.
8. **WARNING: Risk of Electric Shock.** When used outdoors, install only to a covered Class A GFCI protected receptacle that is weatherproof with the power unit connected to the receptacle. If one is not provided, contact a qualified electrician for proper installation. Ensure that the power unit and cord do not interfere with completely closing the receptacle cover.
9. **WARNING: Risk of Fire.** Installation involves special wiring methods to run wiring through a building structure. Consult a qualified electrician.
10. **WARNING: Risk of Electric Shock.** Mount the unit at a height greater than 1 foot from the ground surface.

SAVE THESE INSTRUCTIONS – This manual contains important safety and operating instructions for power units.

This device complies with Canadian ICES-003.

Cet appareil ISM est conforme à la norme NMB-003 du Canada.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

User manual requirements for wireless product

a) This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

b) Caution: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

c) This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

d) NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver

is connected.

- Consult the dealer or an experienced radio/TV technician for help.

For mobile device

- a) To satisfy FCC &ISED RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation
- b) To ensure compliance, operations at closer than this distance is not recommended

Region Selection (for Wi-Fi 2.4G device)

Limited by local law regulations, version for North America does not have region selection option.

Exigences relatives au manuel d'utilisation d'un produit sans fil

a) Ce dispositif est conforme à la partie 15 des règles du FCC. Son fonctionnement est soumis aux deux conditions suivantes:

- (1) Cet appareil ne doit pas causer d'interférences nuisibles, et
- (2) cet appareil doit accepter toute interférence reçue, y compris toute interférence pouvant entraîner un fonctionnement indésirable.

b) AVERTISSEMENT: Les changements ou modifications de cet appareil non expressément approuvés par la partie responsable de la conformité pourraient annuler l'autorisation de l'utilisateur à faire fonctionner l'équipement.

c) Cet appareil contient un ou plusieurs émetteurs/récepteurs exemptés de licence qui sont conformes aux CNR d'Innovation, Sciences et Développement Économique Canada applicables aux appareils radio exempts de licence. Son fonctionnement est soumis aux deux conditions suivantes:

- (1) Cet appareil ne doit pas causer d'interférences nuisibles.
- (2) Cet appareil doit accepter toute interférence reçue, y compris toute interférence pouvant entraîner un fonctionnement indésirable.

d) REMARQUE: Cet équipement a été examiné et s'est avéré être conforme aux limites pour un dispositif numérique de la classe B, conformément à la partie 15 des règles du FCC.

Ces limites sont conçues pour assurer la protection raisonnable contre une interférence dommageable dans une installation résidentielle. Cet équipement génère, utilise et peut émettre une énergie de fréquence radio et, s'il n'est pas installé et utilisé conformément aux instructions, il peut causer des interférences nuisibles aux communications radio.

Cependant, il n'y a aucune garantie que l'interférence ne se produira pas dans une installation particulière. Si cet équipement cause une interférence dommageable à un radio ou à la réception d'émissions télévisées, laquelle peut être déterminée en allumant ou éteignant l'équipement, l'utilisateur est encouragé à essayer de corriger l'interférence par une ou plusieurs des mesures suivantes:

- Réorienter ou remplacer l'antenne de réception.
- Augmenter la séparation entre l'équipement et le récepteur.
- Relier l'équipement dans une prise sur un circuit différent de celui auquel le récepteur est connecté.

- Consulter le revendeur ou un technicien expérimenté de radio/TV pour de l'aide.

- Consulter le revendeur ou un technicien expérimenté de radio/TV pour de l'aide.

Sélection de la région (pour appareil Wi-Fi 2,4 G)

Limitée par les réglementations locales, la version pour l'Amérique du Nord n'a pas d'option de sélection de région.

TECHNICAL DATA

Rated input data: DC 20-28V, 3A/5A

Output: DC 20V, 3A/5A

Frequency bands for Wi-Fi (MHz): 2412-2462 MHz

Maximum Transmitted Power for Wi-Fi (dBm): 30 dBm

Waterproof level: IPX4

In the box

Installation

Insert the charging tower into the charging station plate.
