图纸提供单位

耳一号声学科技（深圳）有限公司

项目名称

小米蓝牙项圈耳机 降噪版

版本号

V1.1

设计时间

2019.04.27

设计师

连阿婷

材质工艺要求

材质要求：110g无光铜+哑油

白卡覆哑膜：小米专用防刮花哑膜
物料料号BOPP-YK003

牛卡 材质：秋田牛卡小米专用纸

制作工序：印刷+哑膜/水性消光油+模切+贴胶带

工艺要求：色相正确、印迹牢固、
套印准确、各色套印
不露杂色，套印误差≤ 0.1mm
模切走位≤ ±0.5mm

（示例，具体以产品要求为准）

颜色及 专色：冷灰11C

Product Overview Mi Bluetooth Noise Cancelling Neckband User Manual 	
How to Use ●Turning On Press and hold the power button for 3 seconds, with a blue light on for 1 second to turn on the earphones. It is ready to be connected when turned on for the first time. ●Turning Off Press and hold the power button for 5 seconds, with a red light on for 1 second to turn off the earphones. ●Charging The indicator light is red when charging, and goes off when charging is completed. Note Charging Mi Bluetooth Noise Cancelling Neckband Earphones when it is on, your earphones will automatically turn off and enter the charging mode.	Connecting ●Connecting to A New Bluetooth Device Make sure Mi Bluetooth Noise Cancelling Neckband Earphones is on. Press and hold the power button for 3 seconds, with a blue light on for 1 second to turn it on. Then the red light is slowly blinking, indicating it is ready for connecting. Enable the Bluetooth function on your device, then search for "Mi Bluetooth Neckband Earphones ANC" to connect. If your device prompts for a password, enter "0000". After successfully pairing, the indicator will turn blue slowly blinking. ●Auto-Reconnecting After turned on, the earphones will reconnect to the recently paired Bluetooth device. If there is no connection history, or it fails to reconnect to any device, your earphones will enter standby mode and wait for a connection.
●Clearing Connection History Make sure Mi Bluetooth Noise Cancelling Neckband Earphones is on. Simultaneously press and hold both Volume + and Volume - buttons for 5 seconds to clear connection history. Then it will enter standby mode and wait for a connection. ●Connection Lock When your device is out of wireless range or its Bluetooth function is disabled, your earphones will enter standby mode. If the connection is not restored within 5 minutes, the earphones will automatically turn off. Note When Mi Bluetooth Noise Cancelling Neckband Earphones is on, it can keep working for 5 hours after turn off automatically with cancellation enabled and not any Bluetooth device connected. While in this state, you can reconnect it with Bluetooth device by pressing the power button. CE CE WEEE  All products bearing this symbol are waste electrical and electronic equipment (WEEE) as in directive 2002/96/EC which should not be mixed with untreated household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the supplier or local authorities for more information about the location as well as terms and conditions of such collection points.	FCC This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment operates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the
equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. Safety Caution Do not expose batteries or battery packs to excessive heat such as sunlight, fire or the like.	Read this manual carefully before use, and retain it for future reference.
