■ Specification

- Product code: PAB01
- Product standard: WPC-Qi V.1.2.3
- Wireless TX input: 10W 5V/2A
- Wireless RX output: 5V/1A
- Capacity: 1550mAh
- Frequency: 110-205KHZ
- Transmission distance: 5-8 mm
- Efficiency: 75%
- Color: Gold, Silver, Copper
- Product dimension: 55 x 100 x 20mm
- Certification: CE ROHS FCC

■ Connect to power adapter

- Wireless charger
- Power cable
- Stand
- Sticker
- User manual

■ Notes

- Do not use this unit for anything other than its intended use.
- keep the unit away from heat source and direct sunlight.
- Do not expose the unit to extremely high or low temperatures.
- Use the product in a location with a temperature of 32°F(0°C)-95°F(35°C).
- Do not let the unit come in contact with water or any other liquid. If the unit becomes wet, immediately unplug it from the power source.

■ FCC Statement

This device complies with part 15 and part 18 of the FCC Rules. Operation is Subject To the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not explicitly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 and part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a

particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a
- circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This device complies with Part 18 of the FCC Rules. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and any other radio device.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

This product can be used across EU member states.

Manufacturer: ZANAIV LIMITED

Hardware Version: V1.0

Software Version: V1.0

Operating Frequency: 110~205 KHz

Transmitting Power: -37.36 dBuA/m At 10m.

The device complies with RF specifications when the device used at 10cm from your body.

This product meets the H-field Strength requirement (specified in Council Recommendation 1999/519/EC Annex III) at a distance of 10m.

RED 2014/53/EU

Declaration of Conformity
