FCC ID: 2ASGE9042025

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

OPERATIONS

- (1) Turn on the car, turn on the controller, and set the band selectors on the transmitter and the chassis to the same position.
- (2) While rotating the steering wheel of the controller to the right or the left, pull the trigger backward, the car will be steering to the right or to the left and run forward; while rotating the steering wheel of the controller to the right or to the left, push the trigger forward, the car will be steering to the right or to the left and run backward.
- (3) If the car can't run along a straight line, please use the trimmer on the chassis for adjustment.
- (4) Remember to turn off the car and the transmitter after use.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

BATTERY SAFETY

- (1) Adult's supervision is required for charging.
- (2) To charge the rechargeable battery pack in the car, first remove it from the chassis.
- (3) Timely remove exhausted batteries from the car and the transmitter.
- (4) Make sure the main switch is set to OFF before installing the battery pack into the car body.
- (5) Note polarity marks in the battery compartments when installing the batteries.
- (6) Do not try to charge non-rechargeable batteries.
- (7) Do not short-circuit the batteries.
- (8) If you plan to stop use for a long time, remove the batteries from the transmitter and the car body to avoid leakage.
- (9) Never throw the batteries into fire to avoid explosion or leakage.
- (10) Do not mix batteries from different producers or new and old batteries.
- (11) Use only recommended batteries or equivalent ones.
- (12) Check the batteries on a regular basis to avoid leakage.
- (13) Keep this manual well for future reference as it contains important information about this product.

MAINTENANCE

- (1) If you plan to stop use for a long time, remember to remove all the batteries.
- (2) If necessary, use a towel to gently wipe the car body clean.
- (3) Do not expose this toy to high temperature, high humidity or direct sunlight.
- (4) Do not put this toy in water to avoid damaging its electronic components.

CAUTIONS FOR PLAYING

When the car is in motion, do not touch the wheels by hand to avoid damages to the car.
