

Federal Communications Commission
Authorization and Evaluation Division
1435 Oakland Mills Road
Columbia, MD 21046

Date: October 16, 2020

SUBJECT: FCC Label Location Justification for 2ASHHSP03000ML008

To Whom It May Concern:

This letter is hereby submitted by **WAGZ, Inc.** to request an alternative method of positively identifying the equipment, pursuant to 47 CFR § 2.95(f) of the FCC Rules. The device is too small to such that it would be impracticable to label the device with its FCC ID using a font size that would be easy to read.

The FCC identifier for the device will be placed on the external packaging as well as in the corresponding smartphone app and the following requirements are confirmed to have been met:

- a) The FCC identifier will be visible at the time of purchase by either of the following approaches:
 - Marketing the device without the battery installed, or
 - Providing instruction (stated on the box, user manual, or additional documentation) directing the user as to where to find the FCC label.
- b) The user accessible area will not require any special tools for access and the FCC label will not be placed on a removable part.

The user manual has already included the FCC statements, pursuant to 47 CFR § 15.19(a)(3), 15.21 and 15.105(b).

If you have any questions or need further information, please contact the undersigned.

Regards,

A handwritten signature in black ink, appearing to read 'Samuel Stoddard', written in a cursive style.

Samuel Stoddard
CTO
Wagz, Inc.
