Subject: FCC Class II Permissive Change request for collocation consideration.

This document is a request to apply for FCC & IC Class II Permissive Changes on our RF module previously Granted/Certified under the following ID:

FCC ID: 2ASIK-AQUADMDM

IC ID: 21415-AQUADMDM

Our module will be integrated in a specific final host equipment in collocation with up to 4 same radio modules.

As a consequence a new RF exposure calculation has been performed in order to check the compliance with FCC and ISED rules.

No hardware and software modification have been performed on the radio modules described above.

Erwan GASC
