

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and Board
View 1****EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is rectangular and populated with various electronic components, including a central microcontroller, several resistors, and capacitors. It is placed on a black surface with a blue textured background. A white ruler is visible on the left and bottom, showing measurements in millimeters (mm). The component is oriented horizontally.
Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. The component is rectangular and populated with various electronic components, including a central microcontroller, several resistors, and capacitors. It is placed on a black surface with a blue textured background. A white ruler is visible on the left and bottom, showing measurements in millimeters (mm). The component is oriented horizontally.

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled '3', showing its soldered side. The component is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length spanning approximately from the 10 mm mark to the 60 mm mark. The PCB features various electronic components, including a large central chip, several smaller surface-mount components, and a connector on the left side.
Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled '4', showing its soldered side. The component is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length spanning approximately from the 10 mm mark to the 60 mm mark. The PCB features various electronic components, including a large central chip, several smaller surface-mount components, and a connector on the left side. The text 'LOCKLY' is visible on the PCB, along with other markings: 'PC06/7 ZWAVE REV:00', 'E334023', 'W394V-0', and 'RoHS'.
