

UL 4200a-23 Notice

This product contains non-replacement batteries. The battery type is MS621 Lithium with a nominal voltage of 3V. Please follow the local regulations for properly disposing of used batteries, ensuring recycling or disposal. Keep away from children. Do not dispose of batteries in household trash or incinerate them. Used batteries have the potential to cause severe injury or even death. If needed, please contact your local poison control center for information on treatment. Avoid forcing discharge, recharge, disassembly, or exposure to heat exceeding the manufacturer's specified temperature rating. Doing so could lead to injury from venting, leakage, or explosion, resulting in chemical burns. Non-rechargeable batteries are not to be recharged.

⚠ WARNING	
• INGESTION HAZARD : This product contains a button cell or coin battery. • DEATH or serious injury can occur if ingested. • A swallowed button cell or coin battery can cause Internal Chemical Burns in as little as 2 hours. • KEEP new and used batteries OUT OF REACH of CHILDREN. • Seek immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body. • The product contains non-replaceable batteries. • Battery type : MS621FE FL11E Nominal voltage : 3.0V	

IC Warning:

This device contains license-exempt transmitter(s)/receiver(s)/ that comply with Innovation, Science, and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

- This device may not cause interference and
- This device must accept any interference, including interference that may cause undesired operation of the device.

Radiation Exposure: This equipment complies with Canadian radiation exposure limits set forth for an uncontrolled environment, IC RSS-102. To maintain compliance with Industry Canada RF exposure guidelines, the device must be installed and operated with a minimum separation distance of 20 cm between the device and the user. This device and its antenna(s) must not be co-located or operated in conjunction with any other antenna or transmitter.

Déclaration de l'ISED Canada:

Cet appareil contient des émetteurs/récepteurs exempts de licence conformes aux RSS exempts de licence d'Innovation, Sciences et Développement économique Canada. L'opération est soumise aux deux conditions suivantes:

- Cet appareil ne doit pas causer d'interférences et
- Cet appareil doit accepter toute interférence, y compris les interférences pouvant provoquer un fonctionnement indésirable de l'appareil.

Exposition Aux Radiations: Cet équipement est conforme aux limites d'exposition aux radiations établies par le Canada pour un environnement non contrôlé, IC RSS-102. Afin de maintenir la conformité avec les lignes directrices d'Industrie Canada en matière d'exposition aux radiofréquences, l'appareil doit être installé et utilisé avec une distance minimale de séparation de 20 cm entre l'appareil et l'utilisateur. Cet appareil et son ou ses antennes ne doivent pas être co-localisés ni fonctionner en conjonction avec une autre antenne ou un autre émetteur.

EU Compliance Information and RF Exposure Notice:

The following table provides information on the frequency bands used and the maximum RF transmit power of the product for sale in the EU:

FREQUENCY RANGE (MHz)	MAX. TRANSMIT POWER (dBm)
2400 - 2472	19.87 dBm
2400 - 2480 (BLE)	9.21 dBm
2400 - 2480 (BR/EDR)	8.43 dBm
5150 - 5250	20.97 dBm
5725 - 5875	13.94 dBm

This equipment must be installed and operated with a minimum separation distance of 20 cm between the radiator and the user's body. Aviron Interactive hereby declares that the radio equipment type Console Module (ATS) is in compliance with Directive 2014/53/EU.

When operating in the 5150–5250 MHz frequency range, this device is restricted to indoor use only.

Lorsqu'il fonctionne dans la plage de fréquences 5150–5250 MHz, cet appareil est réservé à un usage intérieur uniquement
