Technical Specifications

Product Name	Wireless Speaker
Model	CPR-DS191Pro
Output Power	5.8W
Transducers	ϕ 63.5mm
Bluetooth	5.0
Frequency Response	100Hz - 20KHz
Charging Port Type	Type-C
Power Supply	DC 5V⎓ 2A
Internal Battery Capacity	2200mAh/7.4V
Charging Time	2-4 hours
Battery Life	3-5hours
Dimension	ϕ142*H230mm

Date of Quality Inspection/ Quality Inspection Certificate

Hazardous Substances names and contents in the product

In order to meet the relevant provisions of the "Management Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products" (Order No. 32 of the Ministry of Industry and Information Technology of the People's Republic of China), the hazardous substances in this product are classified by component and declared as follows:

Components	Hazardous Substances					
	Pd	Hg	Cd	CrVI	PBB	PBDE
Case	O	O	O	O	O	O
Transducers	O	O	O	O	O	O
Circuit Board Components	X	O	O	O	O	O
Charging Cable	X	O	O	O	O	O

This table is prepared in accordance with the provisions of SJ/T11364.
O: Indicates that the content of the hazardous substance in all homogeneous materials of the component is within the limit requirements specified in GB/T26572.
X: Indicates that the hazardous substance will exceed the limit requirements specified in GB/T26572 in at least one average material of the component.

The hazardous substances contained in this product are in compliance with the requirements of China's "Regulations on the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products" due to current technological limitations and the inability to find alternative substances. And it falls within the scope of EU RoHs exemption. Special consideration has been taken in the design of the product to ensure that the appearance components are made of non-toxic and environmentally friendly materials, so that consumers will not come into contact with harmful substances under normal use and will not cause harm to the human body.

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device,pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates,uses and can radiateradio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
