| <p>EUT Housing and Board View 3</p>  |  A photograph showing two electronic components, a green circuit board and a black plastic housing, placed on a blue textured surface. A black L-shaped ruler with white markings in millimeters is positioned to the left and bottom of the components for scale. The green board has a gold-colored connector on its top edge. |
| <p>Solder Board-Component View 1</p> |  A close-up photograph of a small blue circuit board component. The board is positioned on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. The component has a gold-colored connector on its left side and various surface components. The text 'TX-V1.3' is visible on the board.   |

| <p>Solder<br/>Board-Component<br/>View 6</p> |  <p>A photograph of a green printed circuit board (PCB) component, likely a module, placed on a blue textured surface. The component has a black connector on the left and a gold-plated connector on the right. A white circular logo is visible on the PCB. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The ruler markings are oriented vertically, with 0 mm at the top and 100 mm at the bottom.</p>                                                                            |
| <p>Antenna View 1</p>                        |  <p>A photograph of a blue printed circuit board (PCB) component, likely an antenna module, placed on a blue textured surface. The component has various electronic components and a small antenna structure. A red box highlights a specific area on the PCB, and a red line points from a label to this box. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The ruler markings are oriented vertically, with 0 mm at the top and 100 mm at the bottom.</p> <p>2.4GHz TX Antenna</p> |

|                       |                                                                                                              |
