

Solder Board-Component View 4	 A photograph of a small, rectangular electronic component with a blue solder mask, mounted on a blue textured surface. The component is positioned next to a black L-shaped ruler with white markings in millimeters. The ruler shows the component is approximately 10mm wide and 5mm high.
Solder Board-Component View 5	 A photograph of the same electronic component from a different angle, showing its green solder mask and a gold-colored connector. It is placed next to the same black L-shaped ruler for scale, showing it is approximately 10mm wide and 5mm high.

Solder Board-Component View 6	 A photograph of a small green printed circuit board (PCB) component, likely a solder bridge or jumper, placed on a blue textured surface. The component is positioned next to a black L-shaped ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm on both the horizontal and vertical axes. The component is a small green rectangle with a gold-colored pin header on one end.
Antenna View 1	2.4GHz TX Antenna  A photograph of a blue printed circuit board (PCB) component, identified as a 2.4GHz TX Antenna, placed on a blue textured surface. A red rectangular box highlights a specific component on the board, and a red line points from the text label "2.4GHz TX Antenna" to this box. The PCB is populated with various electronic components, including a large integrated circuit (IC) and several smaller components.
