

XCHARGER User manual

<https://moxiecorp.com/>

The all new gen wireless charger is made from selected materials, Providing you more free and high-end in-car/desk wireless charging experience. Easy installation ,safe and stable. It can be rotated 360°. Put and charge. Not easy to fall off even there is jolt. Start a new wireless charging world!

Product parameters

Model: XCH-001
Charging way: electromagnetic induction
Protocol standard: WPC1.1.2
Input Voltage & Current: 9V 1.6A
Output power: 10W
Working temperature: -25°C to 80°C
no-load power consumption: 120~650mW
Effective transformation distance: <10mm
Transfer efficiency: ≤72%
Working frequency: 110~205KHz

Product appearance

Magnet adsorption position

Instruction

1. Connect Micro interface of charging cable with car magnetic wireless charger.
2. Connect USB interface of charging cable with car charger.
3. Fix the car magnetic wireless charger on the air conditioner vent.
4. Put and charge.

Installation of round iron sheet
