

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (Electronic Under Test) housed in a black plastic enclosure. The enclosure is open, revealing a green printed circuit board (PCB) with various electronic components, including a camera lens, a microphone, and a battery. A black ruler is placed horizontally across the top of the enclosure for scale. The background is a blue surface.
Solder Board-Component View 1	 A close-up photograph of a small green PCB component, likely a camera module, soldered onto a larger PCB. The component has a lens and a microphone. A black ruler is placed vertically to the left of the component for scale. The background is a blue surface.

Solder Board-Component View 2	 A photograph of a small green printed circuit board (PCB) component, labeled KT898CDSV04-20210315, mounted on a black solder mask. The component has two red wires soldered to its right side. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The background is a blue textured surface.
Solder Board-Component View 3	 A photograph of a black PCB component with four white circular connectors (two on the left, two on the right) mounted on it. The component is placed next to a black ruler with white markings, showing dimensions in millimeters. The background is a blue textured surface.

Solder Board-Component View 4	 A photograph of a black rectangular component with a semi-circular cutout in the center. The component is placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component has four blue circular marks at the corners and a small connector on the right side. The text "KT898LED2X3V02-20201225" is printed on the top right of the component.
Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) with various components. The PCB is placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the PCB, showing measurements from 0 to 100 mm. The PCB features a large silver heat sink, a black component, and several smaller components. The text "8588WV03-20210527" is printed on the bottom right of the PCB.
