

Quick Start Guide

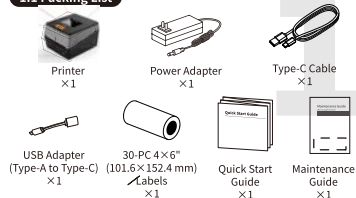

D420D Label Printer

English

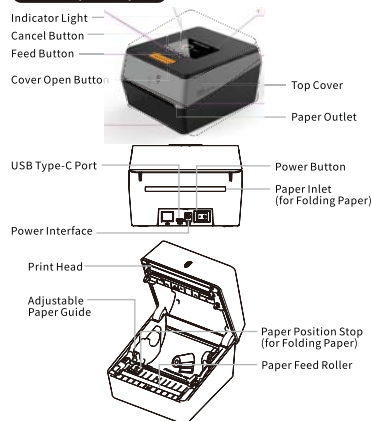

1. Product Introduction

1.1 Packing List

- ① •DHL recommends using a 4×8" (100×200 mm) label.
- The power adapter plug varies by country.
- To avoid printing malfunctions, please use the original power adapter.

1.2 Description of parts

2. Preparation Before Use

2.1 Remove the protective sheet from the print head.

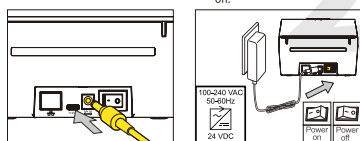

- ① Press the cover open button and lift the top cover upward.
- ② Remove the protective sheet.

- ① If your printer model does not include a disposable protective sheet, please skip this step.

2.2 Connect to the power supply

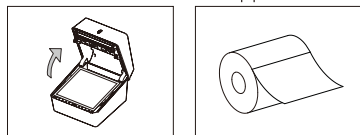

- ① Plug the round end of the power adapter into the printer's power port.
- ② After connecting to the power supply, press the power button and the indicator light will turn on.

- ① Use the original power adapter.

2.3 Load the label paper

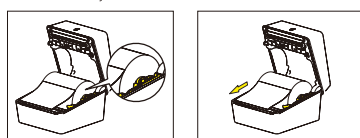

- ① Press the cover open button and lift the top cover upward.
- ② Remove the protective tab from the paper roll and unfold the label paper.

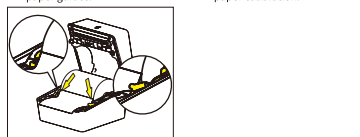

- ③ Pull the adjustable paper guide outward and insert the label paper.
- ④ Ensure the printable side of the label paper is facing up.

- ④ Adjust the label paper so the roll core fits into the adjustable paper guide, ensuring the label paper can rotate freely.
- ⑤ Pull the label paper out through the paper outlet.

- ⑥ Press the label paper under the paper guide slot of the adjustable paper guides.
- ⑦ Close the top cover and wait for the printer to complete automatic paper calibration.

3. Getting Started

3.1 Download the App

Method 1: Search for the "Labelife" app on App Store® or Google Play™ for download and installation.

Method 2: Scan the QR code to download the app. You can scan the code using your cell phone's camera, the built-in QR code scanning feature of your browser, or a dedicated QR code scanning app.

- ① Since the Safari browser on Apple devices does not support direct QR code scanning, please use your device's built-in QR code scanner instead.
