1. Installation and disassembly of battery cover: press the concave pin on the back of battery cover, gently press it and push it down, then the battery cover can be removed (see Figure 1).
1. battery installation: four 1.5V AAA batteries are used in this telephone for power supply. Alkaline batteries are recommended. The batteries must be put in successfully according to correct positive and negative directions, and cannot be installed upside down. If the telephones will be out of use for more than 24 hours, be sure to take out the batteries to avoid power loss. (See Figure 2)
2. Installation and disassembly of belt clip:

- used to install the
called (see Figure
then hang it on
