With Cell Battery Remote Shutter

FCC Statement

Changes in regulations not expressly approved by the party responsible for compliance could render the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Notes: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications; however, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC Warning

This device complies with Industry Canada's exemption RST standards. Operation is subject to the following two conditions:

(1) this device may cause interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation of the device.

Notes: L'équipement a été approuvé en conformité avec les exigences relatives aux appareils radio exempts de licence. L'exploitation est assujettie aux deux conditions suivantes:

(1) l'appareil peut produire de l'interférence, et
(2) l'appareil doit accepter toute interférence radioélectrique qu'il reçoit, y compris celle qui pourrait compromettre le fonctionnement de l'appareil.

This Class B digital apparatus complies with Canadian ICES Class 003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

F.R.P. Statement:

The device has been evaluated to meet general RST exposure requirements. The device can be used in a portable manner consistent with the restrictions.

Product Introduction

Material	Plastic & Aluminum Alloy
Weight	Approx. 11.2 oz
Rated Size	6.1 x 1.1 x 1 inches
Safe Slot Max Length	0.5 inches
Top Hole Width	0.4 inches
Phone holder Size	from 2.2 inches to 3.7 inches
Phone holder Size	2 inches to 2.5 inches
Adjustable Slot Battery Distance	<10 (30%)
Adjustable Cell Battery Model	CH132 (Lithium Polymer 3x 120mAh) (Provides 10h take around 10000 pictures)
Compatible Devices	Android 5.0 and above, Android 4.2 and above version

Wireless Remote Shutter Instructions

Please pull out the mounting strap when using the remote for the first time.

- 1. Turn On/Off:**
Press and hold the remote button for 3 seconds to turn the remote on or off.
The remote will light up when the remote is on or off. If there is no connection for 10 seconds, the remote will shut down.
- 2. Connect with Phone Bluetooth:**
Turn on the remote shutter and open your phone's Bluetooth settings. Search for and connect to "KILBYBEE" (Bluetooth name). Once fully connected, the remote indicator light will turn off.
If you have multiple KILBYBEE remote, make sure you scan to all other devices and then name the devices to distinguish between them.
After you have connected your phone, remote will auto connect with same device the next time when you open your phone and phone Bluetooth. Remote light will be off after auto-connected.
- 3. Taking Pictures and Videos with the Remote Shutter:**
After connect with phone Bluetooth, please open your phone camera and click the remote button once to take a picture. Remote light flashes when clicking.
To take video, select the video option manually and then click remote button once to start recording. Finally press the button again to stop recording.

Note: *The remote cannot control phone apps like Instagram, Facebook, Snapchat.
*If there is no clicking for 10 seconds, the remote will shut down.

Low Battery:

Remote will not work when it is low battery.

5. Take Out & Replacing Cell Battery:

Please slide down the remote from top edge, then open battery back to replace with a new cell battery and lock the cover.
Finally push remote opened to push it back in.
Please also be to loosening from the screw on back cover. Tool not included in the package.

Slide down to take remote out

Battery Model: CH132 Lithium Battery 3x 120mAh

Push upward to put it back in

About Android System Phones Connection

Some Android system phone will allow you to control camera or zoom. Please reset on phone camera settings. List follows key functions, we'll make sure to format them for your phone. (Does not work for all phones)

Camera Options

Step 1 Open and Adjust Selfie Stick Tripod

Selfie Stick Mode
 1. Pull the phone holder, then extend the selfie stick and adjust height to use as selfie stick mode.

Tripod Mode
 1. First, adjust the 3 legs on the bottom. Then pull out the phone holder and hold the pole to pull the whole extendable pole out, the spot will fully open automatically. This is similar to an umbrella structure. (Be careful not to pinch your finger). Finally, adjust the extendable pole height to find best shooting position.
WARNING: Please do not pull the 3 legs directly to open the tripod.

Step 2 Attach the Device on & Rotate Phone Holder

Using the phone, to stretch the phone holder to a suitable length evenly, then rotate it in order to get the phone inside phone holder. Please avoid getting the phone buttons stuck.

Watch other steps on phone holder through the 3 side view means.
 Then know the steps to rotate the phone holder. Freely know to find best shooting angles, finally leave the phone holder.
 * Phone should be mounted at the top of the holder to ensure that 3 long fingers won't obstruct the rotation of phone holder.

For GoPro/Mini Sport Camera Devices

GoPro adapter or sport camera adapter is not included inside package.
 Connect the cord to remove phone holder quickly first, then using the long thumb screw to install GoPro Adapter on. Finally be aware the long screw into lock device on.

Step 3 Release Devices and Close Tripod

First remove device from cold phone mount, then using the phone to stretch the phone holder to a suitable length evenly, then release it in order to take out the phone.
 Finally push the extendable pole back to close the tripod.
WARNING: Please do not pull the 3 legs directly to open the tripod.
