

LED STRIP LIGHTS

User Manual

Product Parameters

- LED type: 3050 RGB.
- Input voltage of adapter: AC 100V-240V.
- Output voltage of adapter: DC 5V.
- Output power of adapter: 36W.
- APP control distance: within 10M.
- BT remote distance: within 5M.
- Working temperature: -20°C ~ +45°C.
- Width of strip light: 1CM.
- Water proof: No.
- Cuttable for LED strip lights: Yes, 8 beds every cut.

23-keys Infrared Remote Control

The controllable distance within 5m, can adjust brightness, change static colors and other effects.

Functions

1.OFF: Turn off.

2.ON: Turn on.

3. Brightness : Adjust the brightness levels of the colors from bright to dim (10 levels).

Instructions

1.Keep the surface clean and dry

2.Tear and Attach

3.Plug in and finished

Common Troubleshooting

*The controller was connected the power, but not light up:

1. Check the input power supply: please use the power adapter that we equipped or other adapters with the same specification as ours. The input voltage must meet the voltage requirement of the led strip lights. When the input voltage is lower than requirement, the led strip lights will not be turn on, while higher voltage may damage the circuit. The output power of the adapter (KW value) must equal to, or higher than the power of the led strip lights.

2. Check whether the connector is connected correctly with the strip lights. Make sure each interface is connected correctly.

3. Check whether the remote control is open.

*If the led strip lights are able to light up, but the remote control does not work or can't control the led strip lights.

1. Check whether the insulation sheet is removed from the remote control.

2. Make sure the battery on the remote control is installed correctly.

3. Ensure that the remote is working within 5 meters and aligned to the infrared receiver of the controller.

4. Try to replace the battery.

Correction Method

6- Remark

A. The pictures used in this manual are iOS app interface, Android version is a bit different.

B. Product and software update periodically, the number and app interface in this manual are only for example. No extra notification on further changes.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Warning Statements:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

BT function is an optional feature and not available on all models.

WARNING

* DO NOT IMMERSE IN FIRE

* CHILDREN UNDER THE AGE OF 16 SHOULD USE THIS PRODUCT UNDER ADULT SUPERVISION.

If you have any question, please contact our customer service, we will reply to you within 24 hours.
