Dear Sir or Madam,

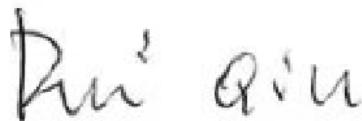

We, AUSOUNDS INTELLIGENCE, LLC, declare that our product High Resolution Streaming Digital Audio Player, Model Number: AU-D1, FCC ID: 2AT6NAU-D1, which chip (model: MT6167) supports the following function:

1. The main chip MT6167 supports 3G / 4G functions and is shielded
2. The main chip MT6167 supports the entire 5G wifi network segment. Only tested B1 and B4, other shields.
3. The main chip MT6167 supports BT V5, only tested BDR + EDR + LE 1M, other shielding

but for marketing purpose, these have been shielded by manufacturer though software and the end user can not have the capability to activate these bands.

Sincerely,

Signature:

Name: RUI QIU
