- Product size: 47*75*34mm
- Net weight: 64g

Volume up key: single press for volume up, long press for volume up and power on

- ③ **Volume up key:** single press for volume up, long press for the next song.
- ④ **Power switch/mode:** Press and hold for 3 seconds to turn off/on. When there is an incoming call, short press to answer the call, long press to reject the call. During a call, short press to end the call. In Bluetooth mode, short press/play/pause. Double click to forcibly disconnect the Bluetooth connection and enter pairing mode.
- ⑤ **Volume down key:** single press for volume down, long press for the previous song.
- ⑥ **Power indicator:** DC 5V
- ⑦ **Work/charging indicator light (blue/red light)**
- ⑧ **Cip**
- ⑨ **Mc (Environmental Noise Cancellation)**

Step 1

- Press and hold the power button "O" for 3 seconds to activate Bluetooth mode. The blue light will flash, indicating the speaker is ready to pair with your mobile device.

A black and white line drawing of a hand pressing the power button on the back of the speaker. The button is a circle with a power symbol inside. The hand is shown from the side, with the thumb pressing the button.

- Step 2**
- Turn on the Bluetooth function on your phone or other Bluetooth device, and then search for a speaker named MZ-523. Connect to the speaker.
- Step 3**
- After successful pairing, there will be a prompt sound and the blue indicator light will remain on.
- Step 4**
- Play music on your phone.
When playing music, the blue indicator light will remain on.
- 
- The diagram shows a top-down view of the MZ-523 speaker. It is a rectangular device with rounded corners. In the center, there is a circular area containing a blue indicator light. A line points from the text 'Indicator Light' to this blue light.

The speaker auto-reconnects to the last device upon powering on, and turns off after 10 minutes if not connected.

- If the device's Bluetooth feature is enabled, the speaker will automatically connect to the last paired device upon powering on.
- Double-click the Power button "O" to disconnect the current device, and double-click again to reconnect current device.

- When the battery is low, the speaker will sound a warning sound and need to be charged.
- The red indicator light remains on during charging, but goes off when fully charged.
- It is recommended to charge products with lithium batteries every three months when not in use.

- Press and hold the power button "O" for 3 seconds to shut down and hear the battery percentage.

- **Answering Calls:** When the speaker is connected to your phone, you can answer incoming calls by briefly pressing the play/pause button "O".
- **Rejecting Calls:** To reject an incoming call while the speaker is connected to your phone, press and hold the play/pause button "O".
- **Ending Calls:** During a call, press the play/pause button "O" briefly to hang up.

This device complies with part 15 of the FCC Rules. Changes or modifications not expressly approved by the party responsible for compliance could void the user's warranty.

NOTE: This equipment has been tested and found to comply with the requirements for Class B digital devices, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the following steps should be taken to eliminate the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Plug the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure limits for uncontrolled environments in portable use. The device has been evaluated to meet specific RF exposure conditions without restriction.
