

**EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**

|                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>EUT Housing and Board<br/>View 1</b></p>      |  A photograph showing the disassembled components of an Electronic Under Test (EUT). On a blue textured surface, there is a white plastic housing with a circular opening, a white plastic back cover, and a green printed circuit board (PCB) with various electronic components. A black ruler with white markings is placed horizontally below the components for scale. |
| <p><b>Solder<br/>Board-Component View<br/>1</b></p> |  A photograph showing a close-up of the green PCB component. The board is populated with various electronic components, including integrated circuits, resistors, and capacitors. Two white wires are soldered to the board. A black ruler with white markings is placed horizontally below the component for scale.                                                       |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|--------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>2</div> |  A photograph showing a green printed circuit board (PCB) with various electronic components, including a microcontroller and several resistors. The PCB is connected to a black rectangular component with two large, white, oval-shaped coils. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters. |
| <div>Solder<br/>Board-Component View<br/>3</div> |  A photograph showing the same green PCB and black component assembly as in View 2, but from a different angle. The PCB is connected to the black component via two thin, white, twisted wires. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.                                                 |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|--------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>4</div> |  A photograph showing a small green printed circuit board (PCB) component mounted on a black solder mask. The component is positioned near a blue circular solder pad. A black ruler with white markings is visible in the background, showing measurements in millimeters. The component has several surface components, including a small black chip and several resistors.       |
| <div>Solder<br/>Board-Component View<br/>5</div> |  A photograph showing a small green printed circuit board (PCB) component mounted on a black solder mask. The component is positioned near a blue circular solder pad. A black ruler with white markings is visible in the background, showing measurements in millimeters. The component is labeled "WS7-Pro_V1.1" and features a USB Type-C port and several surface components. |
